  - > Including 4 PoE + (Power over Ethernet) ports to power the entry station and the reception monitor
  - > Plug & Play connection

\* PACK EASY XE (REF 590.8900)  
 \*\* PACK EASY XE BLE (REF 590.8980)

## A plug & play solution

- > Your factory pre-set door entry station is programmed to call the reception monitor
- > The 2 stations are directly powered (PoE) by the switch

## Optimal security

- > In addition to video verification from the door entry station camera, the reception monitor has a new CCTV feature, which allows viewing video streams from external IP cameras, both in communication and out of communication, enabling enhanced security

## A solution with access control\*\*

- > Access card is integrated in Smartphone (virtual access card)
- > A secure solution and more instinctive
- > Starting up is fairly simple, swiping one of the 3 included configuration cards in front of the reader
- > 3 different access modes according to your needs (card mode, tap tap mode, hands-free mode)

## Receive calls on a smartphone or tablet

- > CASTEL SIP is an audio video intercom solution for Smartphones and tablets. Receive calls from your door entry station and open the door, wherever you are (through Wi-Fi and 3G/4G)
- > The solution offers optimal security and service quality and allows you to stay connected to your intercom station
- > Easy-to-use and intuitive, the application is available for iPhone®, iPad® or Android® devices

## Compliant with the disabled people accessibility regulations (DDA)

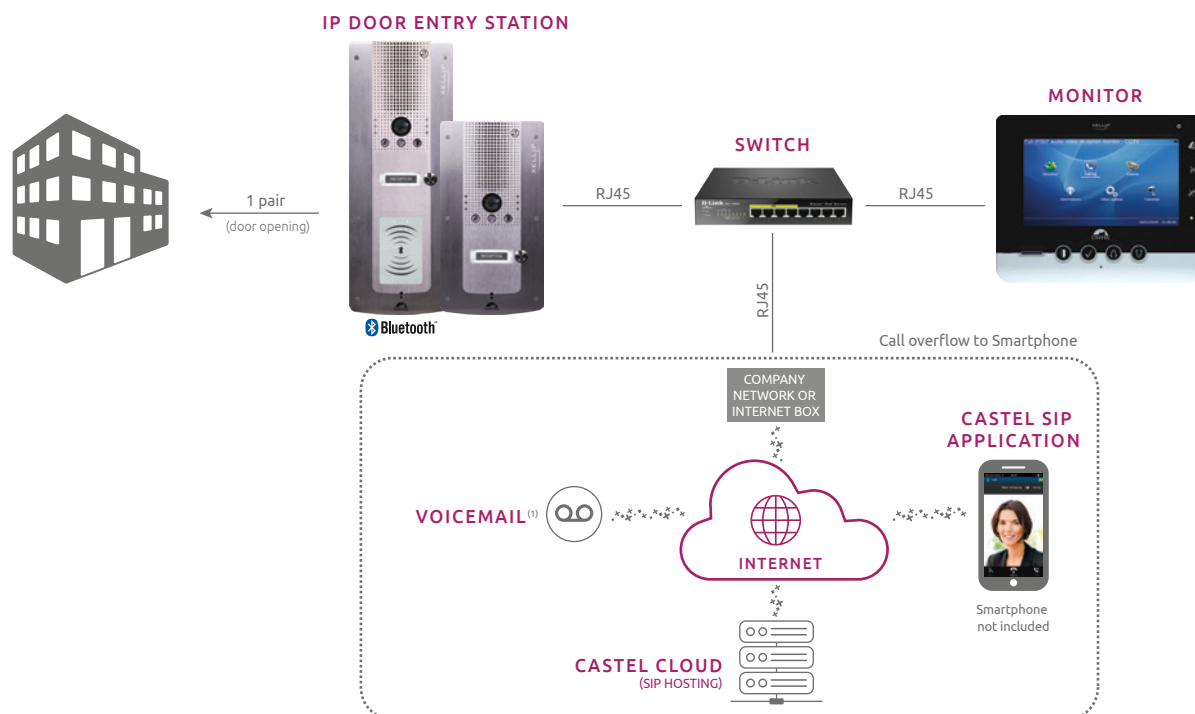

- > Wide angle colour video camera allowing to visualise disabled people who wish to access the building
- > 3 pictograms viewed with coloured LEDs to indicate the operating status (call in progress, communication, door opening)
- > These 3 steps are accompanied by audio messages
- > Integrated audio induction loop

## Schematic

<sup>(1)</sup> In case of a rejected call, non-reception or device off, it is possible to leave a voice mail message on a answering machine which comes directly to the contacted person mail box (audio file attached).
