Quality

Dear Customer,

Welcome to CDVI's new product guide.

Acknowledged throughout the industry as something of an access control bible, our latest edition features hundreds of products covering every area of access control. With the product guide divided into easy navigable sections, this simple and effective format assists in its prime purpose, to make the choice of purchasing from a vast array of access control solutions as straight forward as possible in our one stop shop.

Continuing CDVI's policy of offering customers the most extensive product choice to be found anywhere, the product guide has over 10% new products. This includes our cost-effective and flexible ATRIUM Online Access Control system and its recent upgrades including Texecom integration and a new high security controller.

However, as expansive as the product guide is, our website provides a wealth of further information. Currently over 300 products, 200 manuals, and 250 pdf datasheets are hosted and ready to be downloaded. This product guide in its digital format has hyperlinks to all these features and many more besides. Our IP systems and services meet the Cyber Essentials standards to ensure customer data is protected

As always, being the Access Control manufacturer of choice, we aspire to delivering the highest levels of customer care. Our 10-year warranty is our promise to you that we will always support you over the years. In order to maintain these standards, we need to know if your expectations are being met. For this reason, should you feel they are not, please contact me directly. I will personally see that your concerns are addressed without delay.

Thank you for your custom and continued support.

Best regards,

Paul Ramsay

ATRIUM Access Control

Developed with the end user in mind, ATRIUM web-based access control system features an easy-to-use web browser and free software, providing the user with a fast and reliable method to control access to one or multiple sites, wherever they are and whenever they want. ATRIUM controls up to 500 doors, 64 floors and offers integration with CCTV and Security Alarm systems.

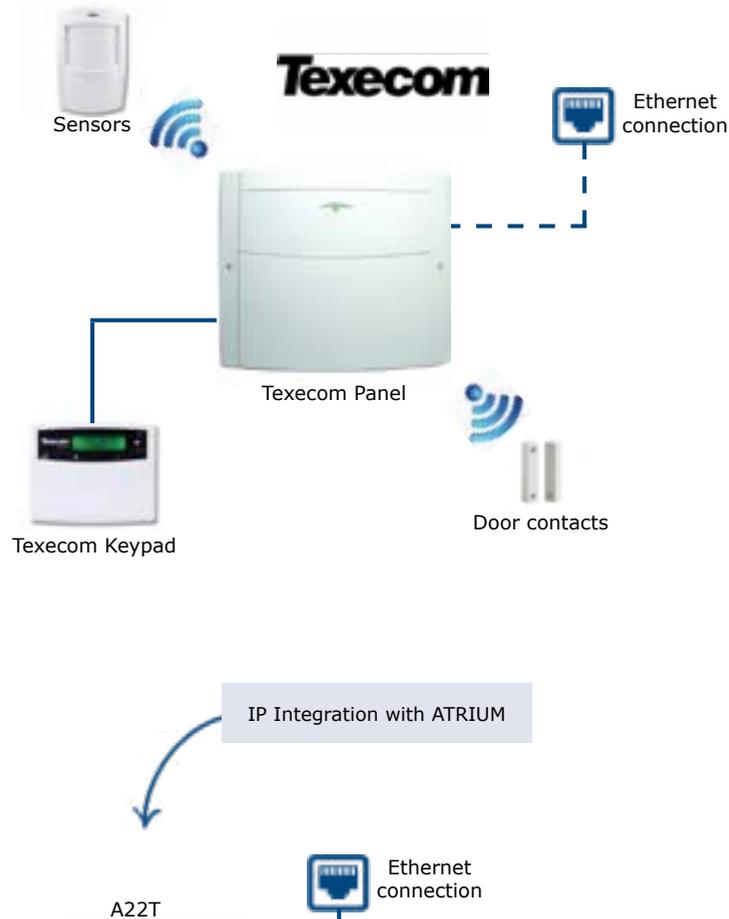

Continually updated to provide installers and users with the latest technology available on the market, the most recent ATRIUM updates include the addition of a lockdown, evacuation and invacuation feature, an integration with Texecom Intruder Alarm Systems (see page 8) and a new high security controller (see page 9).

Reliability is essential to gain confidence in a system, and this confidence is equally important to the installer and end-user alike. With free in-house training available at CDVI, every installer will be able to truly offer a full access control package to their clients.

A22 Texecom Integration

IP Integration with ATRIUM

Key Features

- IP integration with Texecom
- Automatic creation of inputs/outputs for arming and disarming the alarm system
- Allows arm/disarm via:
 - Texecom keypad
 - Tag or card
 - ATRIUM free software
 - ATRIUM free web interface
- "First man in" function - reduces false alarms
- Firmware update on the A22

A22K New High Security ATRIUM Controller

FREE Software

Quick & Easy Card Enrolment (No PC required)

Mifare DESFire EV2 Tag

High Security Multi-Technology Card Reader

A22

- Expandable up to 500 doors
- Up to 10,000 users
- Built-in web server
- Includes free software and user interface

- 230Vac
- 3.3A @24Vdc
- 290 x 280 x 80mm

Reference	Description
A22	ATRIUM 2-door controller
A22POE	ATRIUM PoE Ultra controller
PoE+I	PoE + Injector

AP22

- Expandable up to 500 doors
- Up to 10,000 users
- Built-in web server
- Includes free software and user interface

- 230Vac
- 3.3A @24Vdc
- 290 x 280 x 80mm

Reference	Description
AP22	ATRIUM Apero Enabled Controller/Expander
AH30	Apero hub
E100 / C100 / H100	Apero wireless handle
PAP-TOOL	Apero wireless USB programming tool

A22EC

- Metal cased for security (optional)
- Destination reporting module
- Up to 64 floors
- Includes free software

- 230Vac
- 3.3A @24Vdc
- 290 x 280 x 80mm

Reference	Description
A22EC	ATRIUM Elevator Controller (A22 with firmware upgrade provided by technical)
CAA480A	Relay Module
CAA482P	Destination Reporting Module

AIOM

- Metal cased for security
- Up to 20 inputs via zone doubling technology
- Powered from A22
- Direct RS485 connection with A22

- 230Vac
- 3.3A @24Vdc
- 290 x 280 x 80mm

Reference	Description
AIOM	10 input/output module

USB

- Enters token numbers directly into ATRIUM database
- No driver required
- Works with Windows 7, 8 and 10
- Portable unit for multi-site use

Reference	Description
R125USB	Proximity enrolment reader, USB
R1356USB	MIFARE enrolment reader, USB

SEL2641R433-SAT

- Plugs directly into the ATRIUM controller
- Up to 100m range
- Rolling code security
- Tuned antenna included

- 12Vdc
- 120mA max

Reference	Description
SEL2641R433-SAT	Pluggable radio receiver for ATRIUM
SEA433	Tuned aerial with L bracket

Readers & Cards

CDVI offers a full range of stylish or more traditional readers suitable for modern environments thanks to highly aesthetic features.

All readers from the range give an anytime status of the door through multi-coloured LED's. These access control readers have a high performance read range and are easy to mount.

The range includes 125 kHz proximity readers, 13.56 MHz MIFARE readers and DESFire readers, all tested to the IK10 standard.

A complete range of Proximity, MIFARE, and DESFire tags & cards is available to compliment the reader technology chosen.

Our selection of readers, cards & tags offers great flexibility.

NANO

- Proximity - 125kHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Pre-cabled

- 12Vdc
- 100mA
- 70 x 43 x 23mm

Reference	Description
NANOPB	Compact proximity reader, black
NANOPW	Compact proximity reader, white

STAR

- Proximity - 125kHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Pre-cabled

- 12Vdc
- 100mA
- 130 x 41 x 28mm

Reference	Description
STARPB	Narrow style proximity reader, black
STARPW	Narrow style proximity reader, white

SOLAR

- Proximity - 125kHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Terminal connection

- 12Vdc
- 100mA
- 130 x 90 x 35mm

Reference	Description
SOLARPB	Standard proximity reader, black
SOLARPW	Standard proximity reader, white

MOONARWB

- Proximity - 125kHz
- UK back-box format
- Wiegand 26, 30 or 44 bit
- Terminal connection
- 12Vdc
- 100mA
- 90 x 85 x 13mm

Reference	Description
MOONARWB	Flush proximity reader, black and white covers

KCPROXWLC

- Card & PIN for increased security
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Pre-cabled
- 12Vdc
- 100mA
- 190 x 43 x 27mm

Reference	Description
KCPROXWLC	Combined proximity reader & keypad, stainless

SOLARK

- Proximity - 125kHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Terminal connection
- 12Vdc
- 100mA
- 130 x 90 x 35mm

Reference	Description
SOLARKPB	Combined proximity reader & keypad, black
SOLARKPW	Combined proximity reader & keypad, white

GALEOW

- Backlit keypad
- Secure surface mount
- Wiegand 26, 30 or 44 bit
- Pre-cabled
- 12Vdc
- 100mA
- 110 x 75 x 15mm

Reference	Description
GALEOW	Digicode® keypad with Wiegand output

DGLIWLC

- Robust stainless steel (DGLI)
- Vandal resistant fixings
- Externally rated
- Wiegand 26, 30 or 44 bits
- 12Vdc
- 100mA

Reference	Description
DGLIWLC	Standard proximity reader, stainless
DGLIFWLC	Narrow style proximity reader, stainless
DGLPTWLC	Panel mount proximity reader

DTRR1434

- Hands-free reader
- Compatible with DTXT5434 cards (p.15)
- Wiegand 26 bit
- Terminal connection
- 12 to 30Vdc
- 40mA
- 90 x 60 x 22mm

Reference	Description
DTRR1434	Long range reader

STAR1M

- MIFARE® standard - 13.56MHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Pre-cabled
- 12Vdc
- 100mA

Reference	Description
STAR1M	Narrow style MIFARE® reader, black

SOLSYSDW

- DESFire® EV1 / EV2 standard
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Terminal connection
- 12Vdc
- 220mA
- 163 x 82 x 26mm

Reference	Description
SOLSYSDW	Vandal-proof DESFire® & Wiegand reader

SOLARM

- MIFARE® standard - 13.56MHz
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Terminal connection
- 12Vdc
- 100mA
- 130 x 90 x 35mm

Reference	Description
SOLARMB	Standard MIFARE® reader, black
SOLARMW	Standard MIFARE® reader, white

SOLARMD

- DESFire® EV1 standard
- Audible and visual feedback
- Wiegand 26, 30 or 44 bit
- Terminal connection
- 12Vdc
- 220mA
- 130 x 90 x 35mm

Reference	Description
SOLARMBD	Standard DESFire® reader, black
SOLARMWD	Standard DESFire® reader, white

DGLIMWLC

- MIFARE® standard - 13.56MHz
- Vandal resistant fixings
- Wiegand 26, 30 or 44 bits
- Terminal connection
- 12Vdc
- 100mA
- 97 x 76 x 20mm

Reference	Description
DGLIMWLC	Standard MIFARE® reader, stainless

PCMD

- MIFARE® & DESFire® cards/tags
- USB cable connection to computer

Reference	Description
PCMD	MIFARE® & DESFire® EV1 programmer

METAL

- Proximity or MIFARE® fob
- Metal cased for rugged use
- Stylish design
- Lifetime warranty
- 60 x 30 x 7mm

Reference	Description
METAL1	Robust proximity fob*
METAL	Robust MIFARE® fob*

PPC

- Proximity fob
- PVC construction
- Encapsulated
- Includes keyring
- 40 x 33 x 3mm

Reference	Description
PPC	Standard fob*

*Minimum order quantity: 10

TAG

- Proximity, MIFARE® or DESFire®
- Epoxy resin
- Including cord and key ring
- Multiple encoding options
- 45 x 13 x 2mm

Reference	Description
TAG	Proximity tag - 125kHz - CDVI encoding
TAG-H	Proximity tag - 125kHz - HID encoding
TAG-M	MIFARE® - 13.56MHz - 1K encoding
TAG-EV1	DESFire® EV1 4k encoding
TAG-EV2	DESFire® EV2 4k encoding

BV

- MIFARE® & DESFire® formats
- PVC card
- Credit card format
- 0.8mm thick
- 85 x 54 x 0.8mm

Reference	Description
BV	PVC MIFARE® card
BM4K	PVC MIFARE® DESFire® card

CPE & CPC

- Proximity cards
- PVC
- Slot for neck chain (CPE)
- Suitable for printing (CPC)
- 85 x 54 x 1.8mm (CPE)
- 85 x 54 x 0.8mm (CPC)

Reference	Description
CPE	Clamshell style proximity card
CPC	ISO printable proximity card

DTXT5434

- Hands-free operation
- Up to 15m reader range
- Replaceable integral battery
- Compatible with DTRR1434R (p.33)
- CR2032, 3V battery cell
- 86 x 54 x 5mm

Reference	Description
DTXT5434	Hands-free active card
DTXT5434P	Hands-free active card with proximity tag
DTXT5434MI	Hands-free active card with MIFARE® tag
CLIPDIGITAGLR	Adhesive card holder

Door Automation

Our Digiway Series is an innovative and universal electromechanical door automation system for interior and exterior doors. Its compact electric motor ensures reliable operation and allows for easy installation.

The **DIGIWAY Plus** was developed for accessibility adaptation and will provide an adequate solution in care homes or residential adaptations for people with reduced mobility.

The **DIGIWAY Spring Return** ensures the same high quality and high performance of the DIGIWAY Plus and is assisted by a chain driven mechanism, making it especially suitable for higher traffic sites such as front doors or commercial buildings. The DIGIWAY Spring Return is now **fire rated** and suitable for installations requiring this feature.

You can learn more about the DIGIWAY Series during the free in-house training available at CDVI.

Products	page		
New - Fire test & app	21	DIGIWAY accessories	24
DIGIWAY Plus and Spring Return	22	Compatible CDVI products	26
EN16005 kits	23		

- Secure installation ensuring safety of end-users
- In-built receiver
- Aesthetic final result with minimal cables, ergonomic case and quiet operation
- Compatibility with the full range of CDVI products, including wireless transmitters, keypads, monitors...
- Fire rated to the EN1634-1 60 minutes standard
- Free training available at CDVI

Programming app available

Safety is important!

Fire test: The Digiway Spring Return was fire tested in 2018 to the **EN1634-1 standard**, classifying the performance of building hardware for fire-resisting doors and emergency escape doors. The operator lasted under fire for 60 minutes and is now available for installations requiring this feature.

Fire mode: You can connect fire signal to each Digiway product and choose how each door should act in case of a fire: open, closed but not locked, closed and locked or door free (off).

Day / Night mode with motion sensors: This mode will only allow egress as the exterior detector/exit button will shut off on a timer and not activate the door, note that door automation is not a lock!

	DIGIWAY PLUS	DIGIWAY SR
Door weight (max)	120 Kg	200 Kg
Door width (max)	1.2 m	1.5 m
Power	50 W	100 W
Dimensions (mm)	511 x 90 x 110	685 x 90 x 110

EN16005 Kits

All DIGIWAY products are fully compliant with the **EN16005 standard** in force since April 2013 and allow monitored safety photocells.

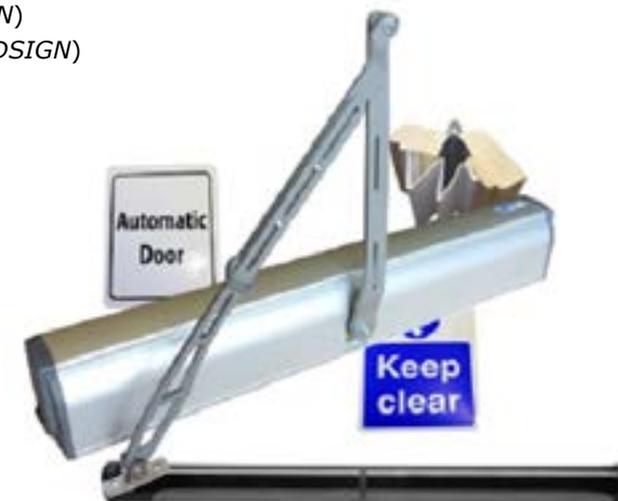

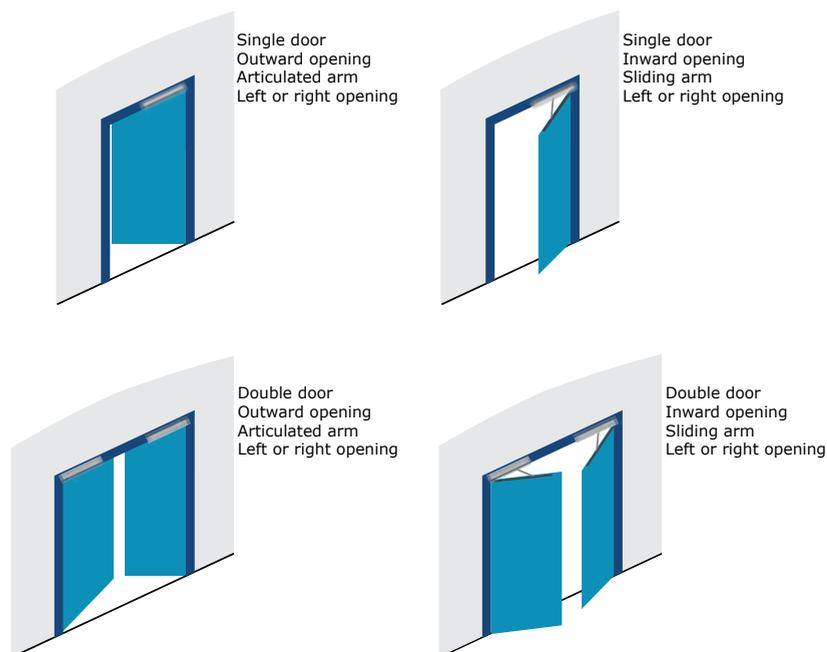

The EN16005 Kits are available for both single and double doors and incorporate either the DIGIWAY Plus or the DIGIWAY Spring Return.

We highly recommend attending one of our **training** courses to learn more about installing and specifying our Digiway Door Operators.

Wish to know more about the EN16005? Register now for our online door automation course at www.cdvi.co.uk/training

Included in the kit:

- DIGIWAY Plus or Spring Return operator(s) with universal arm
- Safety sensors (*DWSSS-5M1*)
- Finger guard(s) (*DWS-FGB* - black or *DWS-FGW* - white)
- "Keep Clear" signs (*DWS-KCSIGN*)
- "Automatic Door" signs (*DWS-ADSIGN*)

Reference	Description
DWPS102U	Digiway Plus operator with universal arm
DWSR102U	Digiway Spring Return operator with universal arm

Reference	Description
EN16005-KIT-U	EN16005 kit for single doors - DIGIWAY Plus
EN16005-KIT-UD	EN16005 kit for double doors - DIGIWAY Plus
EN16005-KIT-U-SR	EN16005 kit for single doors - DIGIWAY Spring Return
EN16005-KIT-UD-SR	EN16005 kit for double doors - DIGIWAY Spring Return

Safety sensor

- Adjustable range
- Selectable detection area
- Weathershield available for external use
- Ideal for DIGIWAY operators
- 12 to 24Vac/dc
- 110mA max

Reference	Description
DWSSS-5M1	Infrared safety sensor
DWWC-SSS5	Weathershield for DWSSS-5M1

Activation sensor

- Adjustable range
- Selectable detection area
- Weathershield available for external use
- Ideal for DIGIWAY operators
- 12 to 24Vac/dc
- 110mA max

Reference	Description
DWHR50-UNI	Microwave activation radar
DWHR50-WC	Weathershield for DWHR50-UNI

Finger guards

- Finger guard protector
- Covers gap on the hinge-line
- Available in black or white
- EN16005 compliant
- 2032mm (length)

Reference	Description
DWS-FGB	Finger guards, black
DWS-FGW	Finger guards, white

DWPCS

- Interconnecting cable
- Allows automation of double doors
- Included in all Digiway EN16005 double door kits

Reference	Description
DWPCS	Interconnecting cable for double doors

DWSE Extensions

- Extension shaft for DIGIWAY arm
- Chromed steel
- 30, 55 and 80mm
- Ø = 35mm

Reference	Description
DWSE30	30mm motor extension shaft
DWSE55	55mm motor extension shaft
DWSE80	80mm motor extension shaft

DWSP-KS

- 3-position key switch
- Stainless steel
- Direct connection to DIGIWAY
- Internal use
- 10A @ 30Vdc
- 86 x 86 x 30mm

Reference	Description
DWSP-KS	3-position key switch for DIGIWAY, surface
DWSP-KF	3-position key switch for DIGIWAY, flush

The DIGIWAY Series is fully compatible with the full range of CDVI products, including exit devices and posts, wireless transmitters, readers, keypads, monitors, etc...

The products featured here are recommended to use with the DIGIWAY but you can also find other products from those categories on dedicated pages in this catalogue.

Happy selecting!

Exit Devices

- High quality stainless steel
- Large all-active target area
- UK back-box formats available
- Suitable for DDA environments
- Full range of exit devices on page 70

Reference	Description
RTE85DL	All active switch "wheelchair logo"
RTE85E	All active switch "EXIT"
RTED	Large all active switch "wheelchair logo"

Posts

- High grade stainless steel
- Hardened grain finish
- UK format cut-out for exit buttons
- Suitable for external use
- Full range of posts on page 84

Reference	Description
RPSS-CUT	Stainless steel post with UK format cut out

Transmitters

- 1 to 4 channel transmitters
- Fully compatible with DIGIWAY
- Hand-held or wall mount
- Internal or external use
- Full range of transmitters on page 34

Reference	Description
SETMC1C9V	1 channel universal transmitter
TX26-TM	Wall mount transmitter
TX26-E4	4 channel hand-held transmitter

Readers

- Self contained, standalone reader
- 30 users
- Integral lock relay and exit button input
- Uses DTXT range of cards
- Full range of readers on pages 12 and 32

Reference	Description
DTRR1434R	Self contained long range reader

Keypads

Keypads from CDVI include both remote electronics and self contained versions.

Part of the Digicode® brand, they were engineered to secure your premises. These keypads will compliment any audio or video entry system controlling the operation and locking of your doors and gates.

Their design and high resistance to vandalism make them suitable to secure residential as well as industrial sites. The compatibility of the keypads with all CDVI locking devices gives you the flexibility to optimise your systems.

The latest innovation in this range resulted in the new GALEO 4.0, offering high performance and convenient programming and use via a bluetooth app: share access without sharing your code!

Products	page		
GALEO 4.0	29	CBB	30
PROMI-ECO	30	CAASE	31
DGA	30	PROFIL100EC	31

GALEO 4.0

Designed on our award winning GALEO, the new GALEO 4.0 offers class-leading performance and convenient programming via Android and IOS applications.

GALEO is supplied with a remote electronic controller - this means the electronics are housed in the secure area and therefore does not allow the possibility of gaining entry by "tampering" with the electronics within the keypad body.

Key features:

- Manufactured in heavy duty Zamak®
- 100 users
- 3 relays (pulse, timed or latched)
- IK10 rated, IP64 rated
- 12V to 24Vac / 12V to 48Vdc
- 195mA

1 Click on "Connected Box" and choose your controller

2 Change the name of your control box

3 Change the access code

4 Configure the relay type and time

5 Create a user

6 Open the door with the button

Reference

GALEO 4.0

Description

Stylish backlit keypad, 3 relays, bluetooth app

PROMI-ECO

- Compact
- Sturdy polycarbonate construction
- 100 user codes
- 3-8 digit code length
- 12Vac/dc
- 20 to 80mA
- 145 x 80 x 28mm

Reference	Description
PROMI-ECO	Self-contained keypad

CAASE

- Vandal resistant - Diax® security screws
- High grade stainless steel
- 100 user codes
- Illuminated keys
- 12V to 24Vac / 12V to 48Vdc
- 140mA
- 125 x 100 x 3mm

Reference	Description
CAASE	Self-contained flush backlit keypad, 3 relays

DGA

- Vandal resistant - Torx® screws
- Suitable for harsh environments
- 100 user codes
- Illuminated keys
- 12V to 24Vac / 12V to 48Vdc
- 25 to 80mA
- 120 x 98 x 25mm

Reference	Description
DGA	Self contained rugged keypad, 2 relays

PROFIL100E

- Vandal resistant
- Narrow style to suit restrictive frame sizes
- Remote electronics (optional for added security)
- Illuminated keys
- 12V to 24Vac / 12V to 48Vdc
- 140mA
- 165 x 43 x 27mm

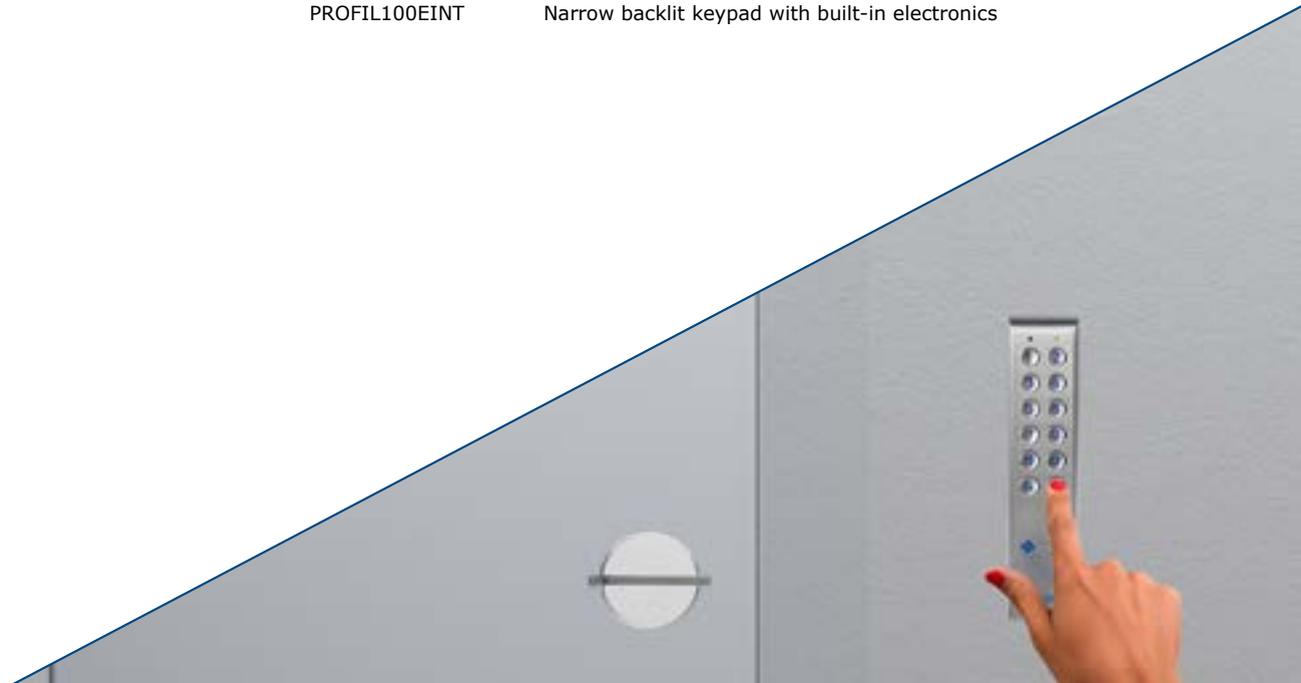

Reference	Description
PROFIL100EC	Narrow backlit keypad with remote electronics
PROFIL100EINT	Narrow backlit keypad with built-in electronics

CBB

- Vandal resistant - Diax® security screws
- High grade stainless steel
- 100 user codes
- Braille keys
- 12V to 24Vac / 12V to 48Vdc
- 140mA
- 120 x 100 x 65mm

Reference	Description
CBB	Self contained keypad, 3 relays

Standalone Access Control

Standalone Access Control is used to control access on one or several independent doors in a building. Gaining access can be done by using a code, a proximity or MiFare card or tag (full range on pages 18 and 19), depending on the type of reader chosen.

The readers are programmed at the door, adding or removing a card or tag is completed at each door on the system. For this reason, standalone access control is recommended for small buildings or business as well as storage units. A web-based access control, such as the ATRIUM (page 6), should be used for bigger sites.

The SOLAR2R is a new product to the Standalone Access Control range by CDVI. It allows for two factor reading (proximity card/tag and code). The TM-SOLAR2R auxiliary reader completes the overall look of the installation on both sides of the door.

Products	page
SOLAR2R	33
STAR1M	33
DTRR1434R	33

SOLAR2R

- 125kHz Reader and Keypad
- Stylish design
- 1000 users
- Remote electronics included
- 12Vdc
- 260mA
- 130 x 90 x 35mm

Reference	Description
SOLAR2R	2 door modern controller
TM-SOLAR2R	Auxiliary reader

STAR1M

- MIFARE® standard
- Stylish design
- Audible and visual feedback
- Shadow card function
- 12Vdc
- 100mA
- 130 x 41 x 28mm

Reference	Description
STAR1M	Narrow style MIFARE® reader, black
STAR1MK	STAR1M kit with 10 cards
STAR1M SC	Shadow cards for STAR1M
STAR1M SC10	Shadow cards for STAR1M - pack of 10
STAR1M SC50	Shadow cards for STAR1M - pack of 50

DTRR1434R

- Self contained reader/controller
- Integral lock relay and exit button input
- 30 users
- Uses DTXT range of cards (p.15)
- 12 to 30Vdc
- 40mA
- 90 x 60 x 22mm

Reference	Description
DTRR1434R	Self-contained long range reader

Transmitters & Receivers

A complete range of high quality and high performance radio control and switching products to provide wire-free control of gates, barriers, doors, lights etc.

The hand-held **transmitters** are available as 1, 2 or 4-button with the option of an integral prox tag for multi-technology access control. The rolling-code technology used increases the security of the transmitted signal by changing constantly.

The **receiver** range is compatible with all our rolling-code transmitters. The receivers are available in various formats for internal and external use, including low or high voltage input and different relay outputs with combinations of pulse, latched and timed triggers. All external receivers are housed in weather resistant enclosures.

Standard range is up to 250 meters, this can be enhanced by installing the optional SEA433 tuned aerial.

Products	page

- 3V (CR2032 battery included)
- 74 x 40 x 13mm

Reference	Description
TX26-T1	1 channel hand-held transmitter
TX26-T2	2 channel hand-held transmitter
TX26-T4	4 channel hand-held transmitter

TX26-AM

- 433.92 MHz
- Rolling Code Keeloq®
- Up to 250 meters range in open field
- High security mini transmitter
- 6V (2xCR2016 battery included)
- 60 x 36 x 16mm

Reference	Description
TX26-AM1	1 channel mini transmitter
TX26-AM2	2 channel mini transmitter

TX26-S7E4/ERN

- High security transmitter
- 433.92 MHz - Rolling Code Keeloq®
- Up to 250 meters range in open field
- Innovative robust and stylish design
- 3V (CR2032 battery included)
- 70 x 40 x 13mm

Reference	Description
TX26-S7E4/ERN	4 channel high security transmitter

SETMC1C9V

- Turns a normally open contact into an RF signal
- Up to 1000 meters range in open field
- Open connections (push-to-make) - 433.92 MHz
- Suitable for Exit Buttons (p.70)
- 9V (battery not included)
- 45 x 28 x 6mm

Reference	Description
SETMC1C9V	1 channel universal transmitter

TX26-TM

- 433.92 MHz
- Rolling Code Keeloq®
- Up to 250 meters range in open field
- Wall mount
- 3V (CR2032 battery included)
- 80 x 80 x 25mm

Reference	Description
TX26-TM	4 channel wall mount transmitter

TX26-M1

- 433.92 MHz - Rolling Code Keeloq®
- Discreet triggered transmitter
- Up to 250 meters range in open field
- IP55
- 230Vac
- 50.5 x 40 x 16mm

Reference	Description
TX26-M1	1 channel mains supply transmitter

GALEOR

- 433.92 MHz - Wireless RF keypad
- Polished, high tensile alloy Zamak®
- Up to 250 meters range in open field
- Backlit keys
- 3.6V (LS14500 battery included)
- 110 x 75 x 15mm

Reference	Description
GALEOR	2 channel wireless GALEO keypad

TX26-EXTB

- Outdoor transmitter
- Rolling Code Keeloq®
- Up to 250 meters range in open field
- Weather resistant - IP55
- 230Vac - 50 Hz
- 66.5 x 82 x 66mm

Reference	Description
TX26-EXTB	1 channel external transmitter

SENSRAD

- High security touch sensitive transmitter
- Up to 250 meters range in open field
- Audible and visual feedback
- IP55
- 3.6V (ER14505 Lithium battery)
- 105 x 70 x 23,5mm

Reference	Description
SENSRAD-B	1 channel touch sensitive transmitter, black
SENSRAD-W	1 channel touch sensitive transmitter, white

TX128-E

- 433.92 MHz
- AES128 [Advanced Encryption Standard]
- Up to 250 meters range in open field
- Stylish design
- 3V (CR2032 battery included)
- 74 x 40 x 13mm

Reference	Description
TX128-E2	2 channel transmitter
TX128-E4	4 channel transmitter

TX26-DIN

- High security transmitter
- Rolling Code Keeloq®
- Up to 1000 meters range in open field
- Ideal for industrial and/or domestic use
- 12Vdc
- 60 x 90 x 30mm

Reference	Description
TX26-DIN	4 channel DIN mount transmitter

RX128-XPL

- 433.92 MHz - AES128
- Standalone and Wiegand 26, 30 and 44bit
- Timed, pulse and latched operation
- IP55
- 12 or 24Vac/dc
- 123 x 81,5 x 41,5mm

Reference	Description
RX128-XPL	2 relay receiver, 500 transmitter memory

SESMT03

- Wall holders for hand-held transmitters
- Use with TX26-E1, TX26-E2 & TX26-E4 transmitters (p.35)

Reference	Description
SESMT03	Wall holder

OPR-KIT

- Universal transmitter and NANO receiver
- Converts any N/O switch to a radio device
- Up to 1000 meters range in open field
- Ideal for use where wiring is impractical

- Includes:
- SETMC1C9V
 - RX26-NANO

Reference	Description
OPR-KIT	Universal transmitter & NANO receiver kit

RX26-NANO

- 433.92 MHz
- Compact receiver
- Timed and pulse operation
- Transparent, internal use
- 12 or 24Vac/dc
- 50 x 32 x 20mm

Reference	Description
RX26-NANO	1 relay NANO receiver

RX26-XPL

- 433.92 MHz
- Easy to use LCD screen
- Timed, pulse and latched operation
- Transparent, internal use
- 12 or 24Vac/dc
- 105 x 45 x 28mm

Reference	Description
RX26-XPL	2 relay LCD display receiver, 100 transmitter

RX26-XPL1

- 433.92 MHz - Keeloq® Hopping Code
- Easy to use LCD screen
- Timed, pulse and latched operation
- IP55
- Switching power: 3.5KVA
- 123 x 81,5 x 41,5mm

Reference	Description
RX26-XPL1P	1 relay receiver, 12 or 24Vac/dc, 500 transmitter
RX26-XPL1V	1 relay receiver, 230Vac, 500 transmitter

RX26-XPL2

- 433.92 MHz - Keeloq® Hopping Code
- Easy to use LCD screen
- Timed, pulse and latched operation
- IP55
- Switching power: 3.5KVA
- 155 x 120 x 55mm

Reference	Description
RX26-XPL2P	2 relay receiver, 12 or 24Vac/dc, 500 transmitter
RX26-XPL2V	2 relay receiver, 230Vac, 500 transmitter

RX26-XPL4

- 433.92 MHz - Keeloq® Hopping Code
- Easy to use LCD screen
- Timed, pulse and latched operation
- IP55
- Switching power: 3.5KVA
- 155 x 120 x 55mm

Reference	Description
RX26-XPL4P	4 relay receiver, 12 or 24Vac/dc, 500 transmitter
RX26-XPL4V	4 relay receiver, 230Vac, 500 transmitter

RX26-XPL5

- 433.92 MHz - Keeloq® Hopping Code
- Easy to use LCD screen
- Timed, pulse and latched operation
- IP55
- Switching power: 24VA
- 123 x 81,5 x 41,5mm

Reference	Description
RX26-XPL5	2 relay receiver, 12 or 24Vac/dc, 500 transmitter
RX26-XPL54	4 relay receiver, 12 or 24Vac/dc, 500 transmitter

RX26-MF

- 433.92 MHz
- Universal receiver
- 85 transmitter memory
- IP40
- 230Vac
- 51 x 40 x 16mm

Reference	Description
RX26-MF	1 relay mains powered universal receiver

RX26-DIN

- 433.92 MHz
- Keeloq® Hopping Code
- 85 transmitter memory
- Suitable for industrial or domestic use
- 12 Vac/dc
- 70 x 90 x 60mm

Reference	Description
RX26-DIN	4 relay DIN mount receiver

SELWR433

- Wiegand 26 bit radio receiver
- Single channel wiegand output
- Up to 250 meters range in open field
- Compatible with all CDVI transmitters (p.32)
- 12 or 24Vac/dc
- 25mA
- 105 x 45 x 28mm

Reference	Description
SELWR433	Radio receiver, Wiegand 26 bit

SELW2630MF

- Wiegand receiver for outdoor use
- Ideal for gates & barriers
- Up to 250 meters range in open field
- Compatible with all CDVI transmitters (p.32)
- 12 or 24Vac/dc
- 24mA
- 128 x 128 x 57mm

Reference	Description
SELW2630MF	External receiver, Wiegand 26 or 30 bit

Accessories

- Tuned aerial
- Increases sensitivity of receivers
- 500 users additional memory
- Compatible with all XPL series receives

Reference	Description
SEA433	Tuned aerial with L bracket, 3.5m cable
SEA433L	Tuned aerial with L bracket, 6m cable
MEM-XPL	Backup memory for XPL receivers

CDVI, your one-stop-shop for access control solutions

Manufacturing access control solutions since 1985, CDVI has grown strong with innovative products for the past 20 years.

Our team of industry experts is always on hand to help installers and end users get the maximum out of our products with the minimum fuss.

Our 10 year warranty is our promise to you that we will support you with your installations and products in the long run. We are a manufacturer of high quality product you can count on, no matter where or when.

Providing quality service and technical support is our main goal, always striving to achieve more together!

Drop by our office for a chat or come down for hands-on training and get to know everything you need to know about our product range. Or book your sales visit today by contacting us at sales@cdvi.co.uk - our sales team will be happy to come to your premises and make you discover or rediscover our different solutions for access control and door automation.

We look forward to seeing you soon!

The CDVI Team

Paul	Trudi	Fiona	Darren	Andy
Libby	Tamsin	Charlene	Aaron	
Fiona	Sophie	Dan	Ian	Gareth
Gordon	Suzy	Jamie	Matt	

Has it really been 20 years?

We are celebrating this year our 20th anniversary. For this occasion we wanted to share our happiness and pride of making it this far with you, our partners.

We gave you the opportunity to get 20% discounts on selected products every 20th of the month, to participate in exciting competition and price draws and celebrated our team and everyone that allowed for this anniversary to happen. We even got a new logo to mark the occasion!

We'd like to give you the opportunity to celebrate one more time with us via this catalogue!

Please use the hashtag **#MyCDVIinstall** on Instagram and LinkedIN to share pictures of your CDVI installations.

The best picture at the end of the year will win a trip to Venice!* Be creative!

More competitions and discounts until the end of the year!
Follow us on social media for more information!

Electric Strikes

CDVI offer a wide variety of strikes both in EURO and ANSI versions, from cost effective solutions in mortice and rim configurations through to medium and high security strikes.

All CDVI EURO strikes come with a 5 year warranty and feature built-in MOV's (metal oxide varistors) to ensure reliable performance with access control systems, such as our ATRIUM system. We have solutions to cover many kinds of application including timber doors, aluminium doors, UPVC doors, steel doors, fire rated doors and pedestrian gates.

Monitored versions have a built-in microswitch with NO/NC contacts, providing status on whether the door is opened or closed.

The Constant Current Coils (CC) option allows for DC versions of fail secure strikes to be powered for extended periods of time without degrading the coil, thereby improving the lifetime and durability of the strike.

EURO Strikes Accessories	48
ANSI Strikes	49

GISIP

- High Security
- BS EN 13637 Fire and Panic standard
- Holding force: 750kg
- Adjustable jaw available
- 12 or 24Vdc
- @12Vdc=320mA, @24Vdc=160mA, @48Vdc=80A
- 134 x 23 x 39mm

Reference	Description
GISIP12D	High security safety strike, 12V, right handed
GISIP12G	High security safety strike, 12V, left handed
GISIP24D	High security safety strike, 24V, right handed
GISIP24G	High security safety strike, 24V, left handed

WR Series

- Weatherproof IP65
- Dustproof IP65
- Holding force: 400kg
- Manual hold-open function
- 12Vdc
- 150mA
- 100 x 21,5 x 37mm

Reference	Description
T2GE12D	Weatherproof/dustproof strike, right handed
T2GE12G	Weatherproof/dustproof strike, left handed

PR Series

- Super compact strike
- Ideal for multi-point locking
- Holding force: 330kg
- Non handed
- 10V to 24Vac/dc
- @10Vdc=230mA, @12Vdc=280mA, @24Vdc = 560mA
- 67 x 16 x 25,5mm

Reference	Description
PRP	Fail secure strike, adjustable jaw, monitored
PR	Fail secure strike, adjustable jaw
PRIP(12)	Fail safe strike, adjustable jaw, 12Vac/dc, monitored
PRI(12)	Fail safe strike, adjustable jaw, 12Vac/dc

GPCF

- Certified fire rating: EN 1634-1 (120 min)
- Symmetrical strike
- Holding force: 1000kg
- Fits all CDVI faceplates
- 12Vac/dc or 24Vdc
- @12Vac=540mA, @12Vdc=630mA
- @12Vdc=380mA, @24Vdc=190mA (CC)
- 75.4 x 21.7 x 28.25mm

Reference	Description
GPCF12CC	Fail secure strike, fire rated, 12Vdc, continuous
GPCFIP12	Fail safe strike, fire rated, 12Vdc
GPCF24CC	Fail secure strike, fire rated, 24Vdc, continuous
GPCFIP24	Fail safe strike, fire rated, 24Vdc

G Series

- Fail secure or fail safe available
- Fixed or adjustable jaw available
- Holding force: 300kg
- Powder coated steel
- 12V or 24Vac/dc
- 90 x 28 x 20mm

Reference	Description
GAE	Fail secure strike kit, 12Vac/dc, fixed jaw
GAEI12	Fail safe strike kit, 12Vdc, fixed jaw
GAEI24	Fail safe strike kit, 24Vdc, fixed jaw
GAE12CC	Fail secure strike kit, 12Vdc, CC, fixed jaw
GAE24CC	Fail secure strike kit, 24Vdc, CC, fixed jaw
GAER	Fail secure strike kit, 12Vac/dc, adjustable jaw
GAEIR12	Fail safe strike kit, 12Vdc, adjustable jaw
GAEIR24	Fail safe strike kit, 24Vdc, adjustable jaw
GAER12CC	Fail secure strike kit, 12Vdc, CC, adjustable jaw
GAER24CC	Fail secure strike kit, 24Vdc, CC, adjustable jaw

- Symmetrical strike
- Fail secure, fail safe and monitored versions
- Holding force: 330kg (fixed jaw) - 280kg (adjustable jaw)
- Reversible
- 12V or 24Vac/dc
- 75 x 20.5 x 28mm

Reference	Description
SR12	Fail secure strike kit, 12Vac/dc
SIR12	Fail safe strike kit, 12Vdc
SR12CC	Fail secure strike kit, 12Vdc, CC
SPR12CC	Fail secure strike kit, monitored, 12Vdc, CC
SPIR12	Fail safe strike kit, monitored, 12Vdc
SR24	Fail secure strike kit, 24Vac/dc
SIR24	Fail safe strike kit, 24Vdc
SR24CC	Fail secure strike kit, 24Vdc, CC
SR1024	Fail secure strike kit, 10-24Vac/dc
SPR1024	Fail secure strike kit, monitored, 10-24Vac/dc

The TG1I faceplate comes with all S Series strikes as standard (page 50)

Faceplates

- Stainless steel
- Reversible
- Fits most CDVI EURO strikes

Reference	Description
TG1I	Stainless steel faceplate, 158mm
T290	Stainless steel faceplate, 250mm with deadbolt cut-out

Housings

- Surface mount
- Grey, chrome or brass finish
- Outward opening door options
- Fits all CDVI SR Series strikes
- 135 x 34 x 24mm

Reference	Description
T204GRIS	Surface RIM case, grey finish
T205CHROME	Surface RIM case, chrome finish
T208	Surface RIM case, brass finish
T208OG	Surface RIM case, outward opening, grey finish
T208OB	Surface RIM case, outward opening, brass finish

CPDT

- Dead bolt position contact
- Can be added to the T290 faceplate
- 83.6 x 29 x 15.5mm

Reference	Description
CPDT	Dead bolt position contact

ARU-M

- Fail secure/fail safe, switchable
- Holding force: 750kg
- Long & short faceplate supplied
- Will accept ELU extension lips
- 12 or 24Vdc
- 86 x 38 x 28mm

Reference	Description
ARU-M	ANSI strike, 12Vdc, monitored
ARU-M-24	ANSI strike, 24Vdc, monitored

ELU

- Extension lips for ARU-M Series only
- 25 or 50mm versions

Reference	Description
ELU-25	25mm extension lip for ARU series only
ELU-50	50mm extension lip for ARU series only

DBR-310

- Fail secure or fail safe available
- Stainless steel jaw
- Holding force: 900kg
- Heavy duty
- 12Vdc
- 150 x 32 x 25mm

Reference	Description
DBR-310FL	Deadbolt release, fail secure, monitored
DBR-310FS	Deadbolt release, fail safe, monitored

Magnetic Architectural Handles

Pull handles are becoming increasingly popular with sites that require a strong holding force or a more aesthetic solution.

The range goes from 300kg up to 1200kg and is ideal for locations where a stronger lock is essential; such as schools, halls of residence and other public buildings.

The handles can be fitted to new or existing doors and can be used externally. These can be powder coated to a specific RAL colour to blend with the surrounding door frame.

The exclusive LED feedback and accessories available make for a perfect and complete installation.

Coming soon

P Range

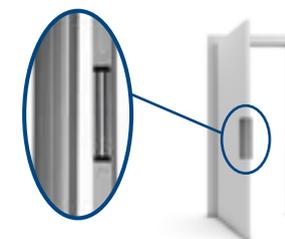

- Surface mount
- Retrofit or new build
- Aesthetic profile
- 1 or 2 x 300kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference	Description
P300RP	Architectural handle, 1x300kg monitored magnet, 400mm
P600RP	Architectural handle, 2x300kg monitored magnets, 600mm

PBO Range

- Surface mount
- Retrofit or new build
- Aesthetic profile
- 1 or 2 x 400kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference	Description
PBO400RN40	Architectural handle, 1x400kg monitored magnet, 400mm
PBO800RN60	Architectural handle, 2x400kg monitored magnets, 600mm

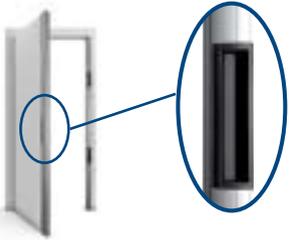

BO600RH

- Surface mount
- Retrofit or new build
- Horizontal housing
- 2 x 300kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference	Description
BO600RH	Architectural horizontal profile housing, 2x300kg monitored magnets

BO600RP

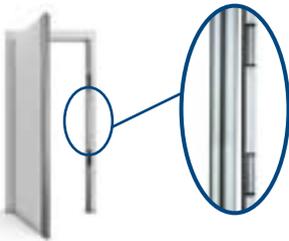

- Surface mount
- Retrofit or new build
- Aesthetic profile
- 2 or 3 x 300kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference

Description

BO600RP	Architectural handle, 2x300kg monitored magnets, 2500mm
BO600RP3V	Architectural handle, 3x300kg monitored magnets, 2500mm

BO800RN

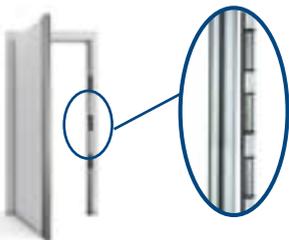

- Surface mount
- Retrofit or new build
- Aesthetic profile
- 2 x 400kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference

Description

BO800RN	Architectural handle, 2x400kg monitored magnets, 2500mm
BO800RN3M	Architectural handle, 2x400kg monitored magnets, 3000mm

BO1200RN

- Surface mount
- Retrofit or new build
- Aesthetic profile
- 3 x 400kg monitored magnets
- 12V or 24Vdc per magnet
- @12Vdc=550mA, @24Vdc=275mA

Reference

Description

BO1200RN	Architectural handle, 3x400kg monitored magnets, 2500mm
BO1200RN3M	Architectural handle, 3x400kg monitored magnets, 3000mm

PRP800

- Mimic handle section
- Reverse side of door
- 2500mm

Reference

Description

PRP800	2500mm mimic handle section
--------	-----------------------------

UBK Series

- Universal "U" bracket
- Glass doors
- Satin anodised aluminium

Reference

Description

UBK25	"U" bracket for architectural handles
ADH-KIT	Glass fixing kit

REOMA

- Kit includes:
- 2 x REO spacers
 - 2 x ALMA cable trays

Max 5 stacked (=25mm)

Reference

Description

REO	2500mm aluminium spacer, 5mm thick
ALMA	2500mm cable tray
REOMA60	Kit 2 x REO + 2 x ALMA - 600mm

Electro-Magnetic Locks

Electro-Magnetic Locks are locking devices consisting of an electromagnet and armature plate. They are designed for ease of installation and long term operation.

The full range of electro-magnetic locks by CDVI includes internal surface and mortice magnets with LED indication and feedback as well as architectural housings for an aesthetic finish, external surface and mortice magnets and magnetic door holders.

CDVI also offers a complete range of accessories, from Z and L brackets to fix kits and door position monitors, to complement each type of installation.

Compatible with access control systems, this range offers a more versatile solution to locking requirements.

V3 Series

- Surface mount
- Rounded profile and safety ropes
- Innovative visual indication
- Z&L bracket available
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 254 x 45 x 28mm

Reference	Description
V3S (S300)	Surface 300kg magnetic lock
V3SR (S300M)	Surface 300kg magnetic lock, monitored
V3SRB (S300MB)	Surface 300kg magnetic lock, monitored & buzzer

V4 Series

- Surface mount
- Rounded profile and safety ropes
- Innovative visual indication
- Z&L bracket available
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 254 x 50 x 29mm

Reference	Description
V4S (S400)	Surface 400kg magnetic lock
V4SR (S400M)	Surface 400kg magnetic lock, monitored

V5 Series

- Surface mount
- Rounded profile and safety ropes
- Innovative visual indication
- Z&L bracket available
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 273 x 67 x 41mm

Reference	Description
V5S (S500)	Surface 500kg magnetic lock
V5SR (S500M)	Surface 500kg magnetic lock, monitored
V5SRB (S500MB)	Surface 500kg magnetic lock, monitored & buzzer

V1SR

- Surface mount
- Monitored
- Satin anodised aluminium
- Z&L bracket available
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=225mA
- 167 x 34 x 21mm

Reference	Description
V1SR (S180)	Surface 180kg magnetic lock, monitored

V3ER

- Mortice mount
- Monitored
- No moving parts
- Fits AT300-H series housings
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 228 x 39 x 27mm

Reference	Description
V3ER	Mortice 300kg magnetic lock, monitored

SD Series

- Surface mount
- Double magnet
- Monitored with LED indication
- Safety ropes
- 12/24Vdc
- @12Vdc=1.2A, @24Vdc=600mA

Reference	Description
SD300M	Double surface magnet, monitored, 300kg per side
SD500M	Double surface magnet, monitored, 500kg per side

V4ER

- Mortice mount
- Monitored
- No moving parts
- Ideal for sliding doors
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 228 x 44 x 29.5mm

Reference	Description
V4ER	Mortice 400kg magnetic lock, monitored

C Line

- Surface mount
- Single or double versions
- Monitored with LED indication
- 12 month warranty
- 12/24Vdc
- @12Vdc=610mA, @24Vdc=305mA

Reference	Description
C3S11	Surface magnet, 300kg, monitored
C5S11	Surface magnet, 500kg, monitored
C3S12	Double surface magnet, 300kg, monitored
C5S12	Double surface magnet, 500kg, monitored

C3M11

- Monitored
- No moving parts
- Fits AT300-H series housings
- 12 month warranty
- 12/24Vdc
- @12Vdc=550mA, @24Vdc=275mA
- 228 x 38 x 27mm

Reference	Description
C3M11	Mortice magnet, 300kg, monitored - entry level

AT300

- Visually aesthetic
- Forms part of the door frame
- Easy installation
- Fits C3M11 and V3ER mortice magnets
- 998 x 50 x 37mm (single door)
- 1998 x 50 x 37mm (double door)

Reference	Description
AT300-1H	1m housing, 1 cut-out
AT300-2-1H	2m housing, 1 cut-out
AT300-2-2H	2m housing, 2 cut-outs
AT300-2-2HV	2m housing, 2 cut-outs, vertical fix
AT300-1L	L bracket for AT300-1 housing
AT300-2L	L bracket for AT300-2 housing

AT500

- Visually aesthetic
- Forms part of door frame
- Easy installation
- Fits AT500M magnetic lock
- 995 x 70 x 50mm (single door)
- 1995 x 70 x 50mm (double door)

Reference	Description
AT500-1H	1m housing, 1 cut-out
AT500-2-1H	2m housing, 1 cut-out
AT500-2-2H	2m housing, 2 cut-outs
AT500-2-2HV	2m housing, 2 cut-outs, vertical fix
AT500-1L	L bracket for AT300-1 housing
AT500-2L	L bracket for AT300-2 housing
AT500M	Mortice magnet, monitored, AT500 housings

External Surface Magnets

- Monitored
- 304 grade stainless steel construction
- For use in harsh environments
- Brackets available (ES brackets, p.58)
- 12/24Vdc
- @12Vdc=630mA, @24Vdc=315mA

Reference	Description
I180SR (ES180)	External surface 180kg magnetic lock, monitored
I400SR (ES400)	External surface 400kg magnetic lock, monitored
I500SR (ES500)	External surface 500kg magnetic lock, monitored

External Mortice Magnets

- Monitored
- 304 grade stainless steel construction
- For use in harsh environments
- Brackets available
- 12/24Vdc
- @12Vdc=630mA, @24Vdc=315mA

Reference	Description
I180ER (EM180)	External mortice 180kg magnetic lock, monitored
I300ER (EM300)	External mortice 300kg magnetic lock, monitored
I500ER (EM500)	External mortice 500kg magnetic lock, monitored

P250D80R

- Surface mount
- No residual magnetism
- Internal or external use
- Ideal for external barrier booms
- 12/24Vdc
- @12Vdc=440mA, @24Vdc=220mA
- Ø80 x 38mm

Reference	Description
P250D80R	Round 250kg magnetic lock

VIRA5

- Test button
- 50kg holding force
- Universal armature
- CE EN1155 Certified
- 24Vdc
- 80mA
- 80 x 70 x 42mm

Reference	Description
VIRA5	Wall mounted magnetic door holder

VIRP5

- Test button
- 50kg holding force
- Universal armature
- CE EN1155 Certified
- 24Vdc
- 80mA
- 113 x 70 x 40mm

Reference	Description
VIRP5	Floor mounted magnetic door holder

SUPVRREG

- Adjustable bracket
- Fits both VIRA5
- White powder coated steel
- Provides a flexible solution

Reference	Description
SUPVRREG	Adjustable wall/floor bracket for VIRA5

L Brackets

- L bracket
- Adjustable
- Satin anodised aluminium
- For 300kg, 400kg & 500kg magnets
- 265 x 76 x 38mm

Reference	Description
300L	Adjustable L bracket for 300 and 400kg magnets
300L-ADJ	Fully adjustable L bracket for 300 and 400kg magnets
500L	Adjustable L bracket for 500kg magnets
500L-ADJ	Fully adjustable L bracket for 500kg magnets

Z Brackets

- Z&L bracket
- Adjustable
- Satin anodised aluminium
- For 300kg, 400kg & 500kg magnets
- 166 x 76 x 38 to 76mm (Z Bracket)
- 166 x 80 x 30mm (L Bracket)

Reference	Description
180ZL	Z&L bracket for 180kg magnets
300ZL	Z&L bracket for 300 and 400kg magnets
300ZL-AC	Architectural Z&L bracket for 300 and 400kg magnets
500ZL	Z&L bracket for 500kg magnets
500ZL-AC	Architectural Z&L bracket for 500kg magnets

300/500AS

- Surface armature housing
- Bevelled edges
- Cast aluminium
- For 300kg & 500kg magnets
- 90 x 60 x 22mm

Reference	Description
300AS/500AS	Surface armature housing for 300/500kg magnets
300ASE/500ASE	Economy surface armature housing for 300/500kg magnets Stackable spacer

ES Brackets

- Z&L brackets for external magnets only
- Powder coated steel

Reference	Description
ESL400	L bracket for the I400SR
ESL500	L bracket for the I500SR
ESZ	Z bracket for the I400SR & I500SR

KVU Fix Kit

- Fixing kit
- Universal solution
- 300 to 500kg magnets

Reference	Description
300/500 KVU	Universal fixing kit for magnets

DPM Series

- Monitors the door position
- Retrofits to A-line single surface magnets
- Saves fitting door contacts
- Changeover contact

Reference	Description
DPM300	Door position monitor for surface 300kg magnets
DPM400	Door position monitor for surface 400kg magnets
DPM500	Door position monitor for surface 500kg magnets

UBK Series

- Universal "U" bracket
- Glass doors
- Satin anodised aluminium
- 185 x 62 x 33.5mm (UBK-U)
- 266 x 62 x 33.5mm (UBK-P)
- 2500 x 62 x 33.5mm (UBK25)

Reference	Description
UBK-U	"U" bracket for magnetic armatures
UBK-P	"U" bracket for magnetic and electric locking
UBK25	"U" bracket for architectural handles
ADH-KIT	Glass fixing kit

REOMA

- Kit includes:
- 2 x REO spacers
 - 2 x ALMA cable trays

Max 5 REO stacked (=25mm)

Reference	Description
REO	2500mm aluminium spacer, 5mm thick
ALMA	2500mm cable tray
REOMA60	Kit 2 x REO + 2 x ALMA - 600mm

Electric Locks

Electric locks offer the perfect combination of fast and convenient access, safe exit, distance operation and surveillance, and more importantly high security.

The range of electric locks offered by CDVI includes fail safe and fail secure locks, solenoid bolts, self-aligning shearlocks, double-action locks and motorised dead bolts. The holding force goes from 650kg up-to 1500kg.

Some locks feature a built-in varistor, which eliminates back EMF and protects sensitive controlling devices such as keypads and access control units.

These devices will actuate the lock in a manner that is either fail-safe (power is used to keep the door locked - recommended for emergency exits) or fail-secure (power is used to retract the bolt).

Products	page		
DX-DY Range	67	SDA Series	69
Shearlocks	68	MV Series	69
ML350	69		

DX-DY Range

- Easy installation
- Fail safe
- Monitored
- Saw proof roller bolt
- 12 to 24Vdc
- @12Vdc=250mA, @24Vdc=125mA
- In rush current: @12Vdc=1.1A
@24Vdc=550mA

The DX200 solenoid bolt provides electrical locking of a door by driving bolt into the strike preventing the door from opening.

It is a relatively simple means of locking a door electronically and provides a great level of security with low level power usage.

It is flush mount but the surface housing available allows for more installation flexibility.

The DY Series offers the same quality as the DX Series and has been accredited by the Rabbinical Court of Paris.

Reference	Description
DX200	Fail safe solenoid bolt, monitored
DX200SH	Stainless steel surface housing for DX200
DX22	22mm electric lock
DX32	32mm electric lock
DX50S	50mm electric lock
DY22	22mm electric lock, Rabbinical accreditation
DY32	32mm electric lock, Rabbinical accreditation
DY50S	50mm electric lock, Rabbinical accreditation

POWERMAG25

- Holding force 800kg
- Fail safe
- Monitored
- Built-in electronic protection
- 12 to 24Vdc
- @12Vdc=600mA, @24Vdc=300mA
- 243 x 25 x 22mm

Reference	Description
POWERMAG25	Narrow style self aligning shearlock, flush
PMAGH	Stainless steel surface housing for POWERMAG25

CZ3000 (CSL30)

- Holding force 1500kg
- Fail safe
- Monitored
- Built-in electronic protection
- 12 to 24Vdc
- @12Vdc=600mA, @24Vdc=300mA
- 230 x 27 x 31.5mm

Reference	Description
CZ3000 (CSL30)	Self aligning shearlock, flush
CSL30H	Stainless steel surface housing for CZ3000

P1200SHL (SHL1200)

- Holding force 1200kg
- Fail safe
- Monitored
- Built-in electronic protection
- 12 to 24Vdc
- @12Vdc=630mA, @24Vdc=315mA locked
- @12Vdc=2.1A, @24Vdc=1.1 in-rush
- 267 x 20 x 34mm

Reference	Description
P1200SHL (SHL1200)	Traditional shearlock, flush
SHL1200H	Surface housing for P1200SHL

ML350

- Holding force 650kg
- Fail safe
- Operates under sideload (225kg)
- Fire rated
- 12 to 24Vdc
- @12Vdc=280mA, @24Vdc=140mA
- 200 x 25 x 41mm

Reference	Description
ML350-12V	Compact electric lock, 12Vdc, monitored
ML350-24V	Compact electric lock, 24Vdc, monitored
ML350H	Surface housing for ML350

SDA Series

- Double action
- Fail safe or fail secure models
- Monitored
- Euro cylinder provision
- 12Vdc
- 320mA
- 25, 30 or 35mm backset

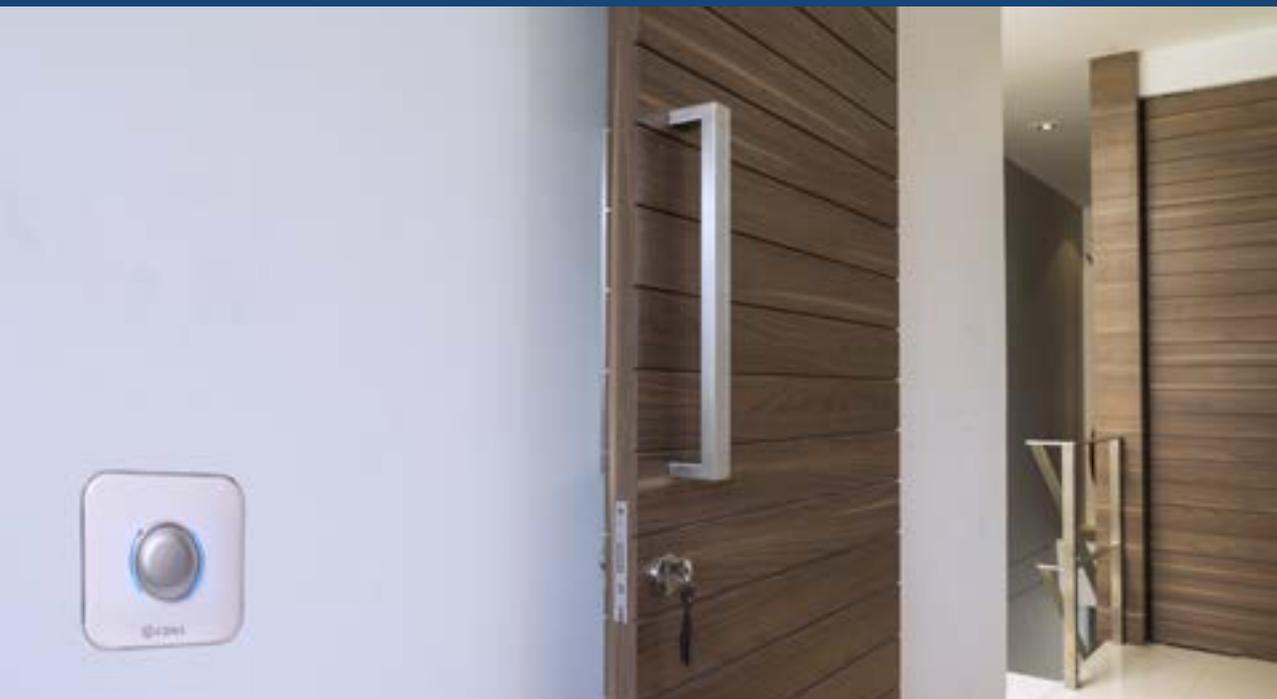

Reference	Description
SDA25	Fail secure double action lock, 25mm backset
SDA25I	Fail safe version
SDA30	Fail secure double action lock, 30mm backset
SDA30I	Fail safe version
SDA35	Fail secure double action lock, 35mm backset
SDA35I	Fail safe version

MV Series

- Non-handed motorised dead-bolt
- Audible signal for locking error
- Includes round cylinder and keys
- Ideal for doors and gates
- 12-18Vac/dc
- 20mA standby; 410mA in-rush
- 126 x 96 x 42mm

Reference	Description
MVA	Motorised dead-bolt
MVM	Motorised dead-bolt with manual over-ride

Accessories

A full range of accessories to assist with your door access projects.

The **exit devices** are available in different versions to meet your needs and the new BP68LS stylish push button is ideal for more modern environments. Push buttons fit the UK back-box format and can be mounted on the RPSS-CUT post (page 81). Push buttons can also be made **wireless** by using the SETMC1C9V universal transmitter (page 33).

The **key switches** range includes 2 or 3 positions key switches in both standard and narrow versions, as well as euro key switches.

Other accessories includes door loops, timers, relays and infrared photocells - all designed to work seamlessly with your access control system.

Products	page
Exit Devices	71
Key Switches	75
Door Loops	77
Timers & Relays	78

BP68LS

- Black and white covers
- Stylish design
- UK back-box format
- Internal use
- 8-15Vdc
- 30mA
- 92 x 84 x 12mm

Reference	Description
BP68LS	Stylish push button, 2 covers, with audible and visual feedback

RTE-IR

- High quality stainless steel
- "No Touch" trigger
- Suitable for DDA
- High traffic use
- 12Vdc
- 85 x 85 x 42mm (surface)
- 85 x 85 x 6mm (flush)

Reference	Description
RTE-IR-S	Infrared exit switch, surface
RTE-IR-F	Infrared exit switch, flush

MSPB

- SAA standard finish
- Double pole switch COM/NC/NO
- Simple surface mount
- Ideal for releasing magnetic locks
- 860 x 62 x 60mm
- can be cut down to 680mm

Reference	Description
MSPB	Microswitch push bar

RTE Series

- Sturdy plastic
- Internal use
- UK back-box format
- High quality
- Surface - standard: 83 x 83 x 29mm
- Flush - standard: 83 x 83 x 5mm
- Surface - architrave: 83 x 33 x 29mm
- Flush - architrave: 83 x 33 x 5mm

Reference	Description
RTE001S	Standard plastic exit button, surface
RTE001F	Standard plastic exit button, flush
RTE002S	Plastic architrave exit button, surface
RTE002F	Plastic architrave exit button, flush
BPDOOR-S	Wide button, plastic exit switch, surface
BPDOOR-F	Wide button, plastic exit switch, flush

RTE-SS Series

- Stainless steel and metal dome button
- Stainless steel plate
- UK back-box format
- Internal & external use
- Surface - standard: 85 x 85 x 29mm
- Flush - standard: 85 x 85 x 2mm
- Surface - architrave: 85 x 38 x 29mm
- Flush - architrave: 85 x 38 x 5mm

Reference	Description
RTE-SS	Stainless steel exit button, surface
RTE-SF	Stainless steel exit button, flush
RTE-AS	Stainless steel architrave exit button, surface
RTE-AF	Stainless steel architrave exit button, flush
RTE-SSD	Green dome exit switch, surface
RTE-SFD	Green dome exit switch, flush

RTE85 Series

- High quality stainless steel
- Large all-active target area
- UK back-box format
- Medium traffic use
- Surface: 85 x 85 x 42mm
- Flush: 85 x 85 x 2mm

Reference	Description
RTE85E	All active switch "EXIT", surface
RTE85E-F	All active switch "EXIT", flush
RTE85DL	All active switch "wheelchair logo", surface
RTE85DL-F	All active switch "wheelchair logo", flush

RTEPTO Series

- High quality stainless steel
- Large all-active target area
- UK back-box format
- Suitable for DDA environments
- Surface - standard: 130 x 130 x 72mm
- Flush - standard: 130 x 130 x 14mm
- Surface - architrave: 114 x 43 x 43mm

Reference	Description
RTEPTO	Large all active switch "PUSH TO OPEN", surface
RTEPTO-F	Large all active switch "PUSH TO OPEN", flush
RTED	Large all active switch "wheelchair logo", surface
RTED-F	Large all active switch "wheelchair logo", flush
RTEPTOD	Large all active switch "wheelchair logo & PUSH TO OPEN", surface
RTEPTOD-F	Large all active switch "wheelchair logo & PUSH TO OPEN", flush
RTEPTOD-A	Architrave all active switch "wheelchair logo & PUSH TO OPEN", surface

EM Series

- Emergency unlock
- Internal use
- UK back-box format
- Accessories available
- 30Vdc max
- 2A
- 86 x 86 x 50mm

Reference	Description
EM200	Emergency door release, break-glass, double pole
EM201	Resettable emergency door release, double pole
EM301	Resettable emergency door release, triple pole
EM301LS	Resettable emergency door release, with light and sounder, triple pole
EM200GDM-GLASS	Replacement glass for EM200
EMKEY	Spare reset key for EM201/EM301/EM301LS
MX-03	Protective cover for EM Series

DBB Series

- Convenient and neat solution
- Stainless steel buttons
- UK back-box format
- Breakglass and resettable models
- 188 x 98 x 57mm

Reference	Description
DBB-21-02	Stainless exit button and break-glass emergency door release
DBB-21-04	Domed exit button and break-glass emergency door release
DBB-22-02	Stainless exit button and resettable emergency door release
DBB-22-04	Domed exit button and resettable emergency door release
RTE-DBB	Green double back box - surface

KS Series - Standard

- Stainless steel
- Keyed alike or keyed to differ
- Momentary or maintained versions
- 2 or 3 positions
- Surface: 85 x 85 x 30mm
- Flush: 85 x 85 x 2mm

Reference	Description
KEY-SSMAKA	Surface standard key switch, 2 position, maintained, keyed alike
KEY-SFMAKA	Flush standard key switch, 2 position, maintained, keyed alike
KEY-SSMAKD	Surface standard key switch, 2 position, maintained, keyed to differ
KEY-SFMAKD	Flush standard key switch, 2 position, maintained, keyed to differ
KEY-SSMOKA	Surface standard key switch, 2 position, momentary, keyed alike
KEY-SFMOKA	Flush standard key switch, 2 position, momentary, keyed alike
KEY-SSMOKD	Surface standard key switch, 2 position, momentary, keyed to differ
KEY-SFMOKD	Flush standard key switch, 2 position, momentary, keyed to differ
KEY-SS3MAKA	Surface standard key switch, 3 position, maintained, keyed alike
KEY-SF3MAKA	Flush standard key switch, 3 position, maintained, keyed alike
KEY-SS3MAKD	Surface standard key switch, 3 position, maintained, keyed to differ
KEY-SF3MAKD	Flush standard key switch, 3 position, maintained, keyed to differ
KEY-SS3MOKA	Surface standard key switch, 3 position, momentary, keyed alike
KEY-SF3MOKA	Flush standard key switch, 3 position, momentary, keyed alike
KEY-SS3MOKD	Surface standard key switch, 3 position, momentary, keyed to differ
KEY-SF3MOKD	Flush standard key switch, 3 position, momentary, keyed to differ
KEY-SSEUMA	Surface euro key switch, maintained*
KEY-SFEUMA	Flush euro key switch, maintained*
KEY-SSEUMO	Surface euro key switch, momentary*
KEY-SFEUMO	Flush euro key switch, momentary*

*cylinder not included

KS Series - Narrow

- Stainless steel
- Keyed alike or keyed to differ
- Momentary or maintained versions
- 2 or 3 positions
- Surface: 85 x 38 x 29mm
- Flush: 85 x 38 x 2mm

Reference	Description
KEY-ASMAKA	Surface architrave key switch, 2 position, maintained, keyed alike
KEY-AFMAKA	Flush architrave key switch, 2 position, maintained, keyed alike
KEY-ASMAKD	Surface architrave key switch, 2 position, maintained, keyed to differ
KEY-AFMAKD	Flush architrave key switch, 2 position, maintained, keyed to differ
KEY-ASMOKA	Surface architrave key switch, 2 position, momentary, keyed alike
KEY-AFMOKA	Flush architrave key switch, 2 position, momentary, keyed alike
KEY-ASMOKD	Surface architrave key switch, 2 position, momentary, keyed to differ
KEY-AFMOKD	Flush architrave key switch, 2 position, momentary, keyed to differ
KEY-AS3MAKA	Surface architrave key switch, 3 position, maintained, keyed alike
KEY-AF3MAKA	Flush architrave key switch, 3 position, maintained, keyed alike
KEY-AS3MAKD	Surface architrave key switch, 3 position, maintained, keyed to differ
KEY-AF3MAKD	Flush architrave key switch, 3 position, maintained, keyed to differ
KEY-AS3MOKA	Surface architrave key switch, 3 position, momentary, keyed alike
KEY-AF3MOKA	Flush architrave key switch, 3 position, momentary, keyed alike
KEY-AS3MOKD	Surface architrave key switch, 3 position, momentary, keyed to differ
KEY-AF3MOKD	Flush architrave key switch, 3 position, momentary, keyed to differ

Door Loops

- Cable/power management
- Easy to install
- 7mm internal diameter minimum
- Economical or vandal resistant versions

Reference	Description
FLEX30	Compact metal door loop, 30cm
FLEX60	Compact metal door loop, 60cm
GF45 (FM)	Traditional door loop, 45cm
GF60 (ADL)	Vandal resistant door loop, 60cm
GF1 (CDL)	Concealed door loop, 27cm

Hinges

- Easy transferring of power
- 2 or 3 pins
- Spring loaded contacts
- Internal use

Reference	Description
C2P	2-pin transfer hinge, 30V, 3A
C3P	3-pin transfer hinge, 30V, 3A
C2P-IND	2-pin bronze transfer hinge, 12V, 3A
C3P-IND	3-pin bronze transfer hinge, 12V, 3A

Timers & Relays

TH Series

- 7-day timer
- Battery backup
- Ideal for "Free Access" unlocking periods

VHLR

- Universal relay
- 2 x changeover contacts
- Ideal for "van spares"

VHLD

- Convenient delay module
- Simple lock release, no additional relay/timers
- 3-10 seconds adjustable timer

TPG1

- Convenient relay and timer
- 0-20 seconds adjustable
- Ideal for door lock control

ILM100

- Interlocking module
- Two door airlock
- Easy to programme/install

SM1228

- Voltage reduction
- Up to 1A load
- Ideal for locking where only 24Vdc available

Reference	Description
TH827-12	Digital timer, 12Vac/dc
TH827-24	Digital timer, 24Vac/dc
TH827-240	Digital timer, 240Vac/dc
TH857	Digital timer, DIN rail mount, 230Vac
VHLR	Universal relay, double pole
VHLD	Delay module, 3-10 seconds fail safe locks
TPG1	Relay/timer, 0-20 seconds
ILM100 (ILM200)	2 door interlocking module
SM1228	Voltage reduction module

SMART BUILDINGS AND ACCESS CONTROL

A TV that turns on when you enter the room. Blinds that close when you go to bed. A front door that unlocks when you approach.

From your smartphone, you are able to control your entire house. Those "Smart Homes", while seemingly a modern trend, have been around since 1975. This technology, called "domotics", has significant advantages for the elderly and people with reduced mobility, while still being able to accommodate any user's preferences.

CDVI recently launched its new GALEO 4.0 keypad. Remotely control from your phone, the possibility to send a unique and secure code to visitors and contractors, as well as the ability to open your gate or front door from your phone app, gives you added flexibility and security in managing access to your home.

If a Smart Home is a Smart Building, not all Smart Buildings are Smart Homes.

Enterprise, commercial and industrial smart buildings are just being developed and talked about. A Smart Building offers many advantages for private or public usage: reduced energy costs, higher efficiency, greater security... Just like you are able to control every aspect of your home from your phone, public buildings can include smart features for a more flexible, efficient and secure management.

Is it complicated?

Not at all - CDVI solutions are easy to install and user-friendly! Both the ATRIUM software and app are web-based are supported on any web-browser for maximum compatibility.

Is it secure?

As the ATRIUM is a web-based access control system, everything is securely stored online via AES 256 encryption, giving you an extra protection against theft. With the MIFARE and DesFIRE readers and cards available at CDVI, it is harder to clone cards and data and thus access the building without an attributed user card or password. The latest version of the software includes an evacuation and invacuation feature for added safety.

Remote access control is possible with CDVI's **ATRIUM web-based access control system**. The free management software allows for a fast and simple installation, while the ergonomic app gives users an easy way to manage access through one or multiple sites whenever they need to and wherever they are.

At CDVI we have also developed other products you might need for a completely secure access control system: from maglocks and power supplies to readers and transmitters.

Want to turn your building into a Smart Building? Find out more about the ATRIUM access control solutions at www.cdvi.co.uk

Power Supplies

Power supplies and transformers have been developed to supply low voltage systems and to provide power in the case of electrical mains failure.

CDVI offer linear or switching power supplies as well as transformers. They are either housed in standard or large metal cases or DIN mounted, depending on your installation's needs.

Switch mode power supplies are ideal for access control and general applications requiring standby battery capability.

CDVI products using switch mode technology are typically **85% efficient**. This can save your customers money by reducing their power bills and carbon footprint. Switch mode technology also makes for more reliable products in the field as they are less likely to overheat.

DIN Rail DC PSU	81
Transformers	82
Metal Case DC PSU	83

ADC335

- Primary and secondary protection
- Sturdy and safe polycarbonate
- DIN rail mount
- High efficiency switch mode
- 230Vac input - 12Vdc output
- 3.5A
- 91 x 54 x 58mm

Reference	Description
ADC335	3.5A, 12Vdc switching power supply

ARD12

- Primary and secondary protection
- Sturdy and safe polycarbonate
- DIN rail mount
- Version with integral relay and timer
- 12Vdc
- 1A
- 142 x 92 x 60mm

Reference	Description
ARD12	1A, 12Vdc power supply
ARD12T	1A, 12Vdc power supply with integral relay and timer

ARD212

- Primary and secondary protection
- Sturdy and safe polycarbonate
- DIN rail mount
- Inputs and outputs protected by thermal fuse
- 12Vac/dc
- @12Vdc=1.5A, @12Vac=0.35A
- 142 x 92 x 60mm

Reference	Description
ARD212	2A, 12Vdc power supply

ARD24

- Primary and secondary protection
- Sturdy and safe polycarbonate
- DIN rail mount
- Inputs and outputs protected by thermal fuse
- 24Vdc
- 1A
- 142 x 92 x 60mm

Reference	Description
ARD24	1A, 24Vdc power supply

CA1A

- Transformer
- High quality
- 5 year warranty
- Ideal to run keypads and electric strikes
- 12Vac
- 81 x 56 x 43mm

Reference	Description
CA1A	12Vac transformer

CA1R

- Transformer
- High quality
- DIN mount
- Ideal to run keypads and electric strikes
- 12/24Vac
- 90 x 65 x 55mm

Reference	Description
CA1R	12/24Vac transformer

PSU Series

- Switch mode
- Short circuit protection
- Additional battery charging current
- LED indication
- Rated voltage: 100 to 240Vac
- Operational voltage: 90 to 264Vac
- Standard case: 200 x 230 x 80mm
- Large case: 330 x 355 x 80mm

Reference	Description
PSU12-1SM	12Vdc, 1A power supply, standard case
PSU12-1LSM	12Vdc, 1A power supply, large case
PSU12-2SM	12Vdc, 2A power supply, standard case
PSU12-2LSM	12Vdc, 2A power supply, large case
PSU12-3SM	12Vdc, 3A power supply, standard case
PSU12-3LSM	12Vdc, 3A power supply, large case
PSU12-5LSM	12Vdc, 5A power supply, large case
PSU24-1LSM	24Vdc, 1A power supply in large case
PSU24-2LSM	24Vdc, 2A power supply in large case
PSU24-3LSM	24Vdc, 3A power supply in large case
PSU24-5LSM	24Vdc, 5A power supply in large case
B7.5	12Vdc, 7AH rechargeable battery*

*two batteries are required for the PSU24 Series

Posts

A range of ready made posts to complement and optimise any access control or automation project. With an understanding that aesthetics and practicality are equally important, these products are suitable to fit in any non-coastal environment.

Posts are perfect when aesthetics are important, the stainless steel range includes models to cater for car, wheelchair and pedestrian users. This range is manufactured from high grade stainless steel and hardened grain finish.

In cases where practicality is more important, the GNP range is made from steel with a black hardened power-coat finish. These are ideal for car and lorry parks.

All posts from CDVI are available on **next day delivery**.

Products	page
GNP Range	85
RPSS Range	85
SSP Range	86

GNP-1C

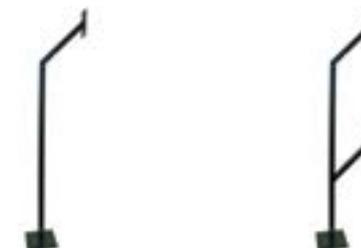

- Car height post
- Goose neck
- Sturdy construction
- Ideal for intercom or card reader
- 50mm sq. x 1000mm
- Next day delivery

Reference	Description
GNP-1C	Car height goose neck post, powder coated black
GNP-1C-SS	Car height goose neck post, stainless steel

GNP-1L

- Lorry height post
- Powder coated black
- Sturdy construction
- Ideal for intercom or card reader
- 50mm sq. x 2100mm
- Next day delivery

Reference	Description
GNP-1L	Lorry height goose neck post
GNP-2CL	Dual height goose neck post

RPSS

- Post with angled top
- 304 high grade stainless steel
- Hardened grain finish
- Suitable for external use
- 100mm sq. x 1000mm
- Next day delivery

Reference	Description
RPSS	Angled top stainless steel post
RPSS-CUT	Stainless steel post with UK format cut out
RPSS-COLLAR	Base plate cover for RPSS & RPSS-CUT posts

RPSS-100D

- Round post
- 304 high grade stainless steel
- Hardened grain finish
- Suitable for external use
- 100mm Ø x 1000mm
- Next day delivery

Reference	Description
RPSS-100D	1M stainless post, 100mm diameter

SSP-DDA-CAR

- Wheelchair height post
- 304 high grade stainless steel
- Hardened grain finish
- Suitable for external use
- 100mm sq. x 1200mm
- Next day delivery

Reference	Description
SSP-DDA-CAR	Wheelchair/car height stainless steel post

SSP-PED

- Pedestrian height post
- 304 high grade stainless steel
- Hardened grain finish
- Suitable for external use
- 100mm sq. x 1600mm
- Next day delivery

Reference	Description
SSP-PED	Pedestrian height stainless steel post

Why is your next installation going to be an Integrated Security System?

SECURING A PRIVATE OR PUBLIC building is a complex issue. From Access Control systems to intruder alarms and CCTV, many solutions are available for businesses and individuals to secure their premises. In today's environment, optimal security solutions can only be achieved by integrating security systems to allow everyone's unique requirements to be met. From boosting productivity, to lower costs, integrating a security system can benefit businesses in many ways.

WHAT IS AN INTEGRATED SECURITY SYSTEM?

An integrated security system allows for multi-layered security systems and integrates them into one solution. Integrating your access control system with your other security systems helps to consolidate your entire security set-up and response. Online Access Control systems integrating with a large range of CCTVs and Intrusion Alarm systems, allow users

to experience a fully functional edge-based system. It gives users a unified security system, accessible from one easy-to-use online interface.

The recent CDVI's ATRIUM / Texcom intrusion alarm integration enables users to benefit from a convenient, reliable and cost-effective integrated security system, managing both access control and intruder alarms. Setting up only one system and deciding all alarm features via the ATRIUM software and app allows for reduced installation time and on-site labour costs.

WHY INTEGRATING ACCESS CONTROL AND INTRUDER ALARM?

Integration between access control and intruder alarm systems offers significant benefits. It allows users to unlock doors only when the intruder alarm is disarmed. The "first man in" function will only activate the access control system and doors if one authorised staff member is already in the building, reducing false alarms.

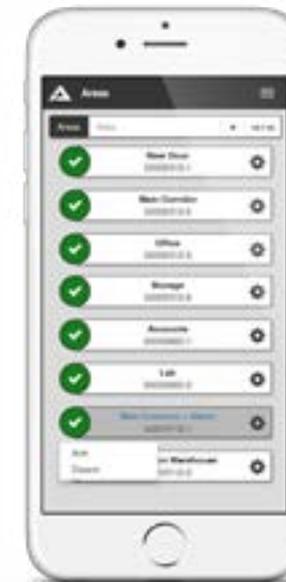

Integrating via IP gives end users the ability to arm and disarm areas via different means, for example the CDVI integration lets users arm and disarm areas through the Texcom keypad, any readers on the system, the ATRIUM free management software and the ATRIUM free web interface. This flexibility gives end users the ability to control their entire system remotely, cost-effectively and efficiently at any given time.

KEY BENEFITS OF INTEGRATED SECURITY SYSTEMS

Efficiency - Through the centralisation of all security systems into one, businesses and individuals will gain in efficiency. Online interfaces are easy to use and allow for fast access and effective management of the database, boosting the productivity and efficiency of the security team.

Real Time monitoring - Business management teams and individuals are able to see what is happening in their premises instantly and remotely. The ATRIUM web interface allows for real time management and monitoring of users, doors and areas from anywhere in the world and at any time users might need it.

Cost saving - An integrated security system will offer considerable cost saving. All ATRIUM access control systems come with a free installer software and end user interface, making it a cost-effective access control solution part of your integrated security system.

Learn more about access control benefits and integrations on the CDVI website: www.cdvi.co.uk

Audio & Video Entry

1 to 128 ways audio and video entry

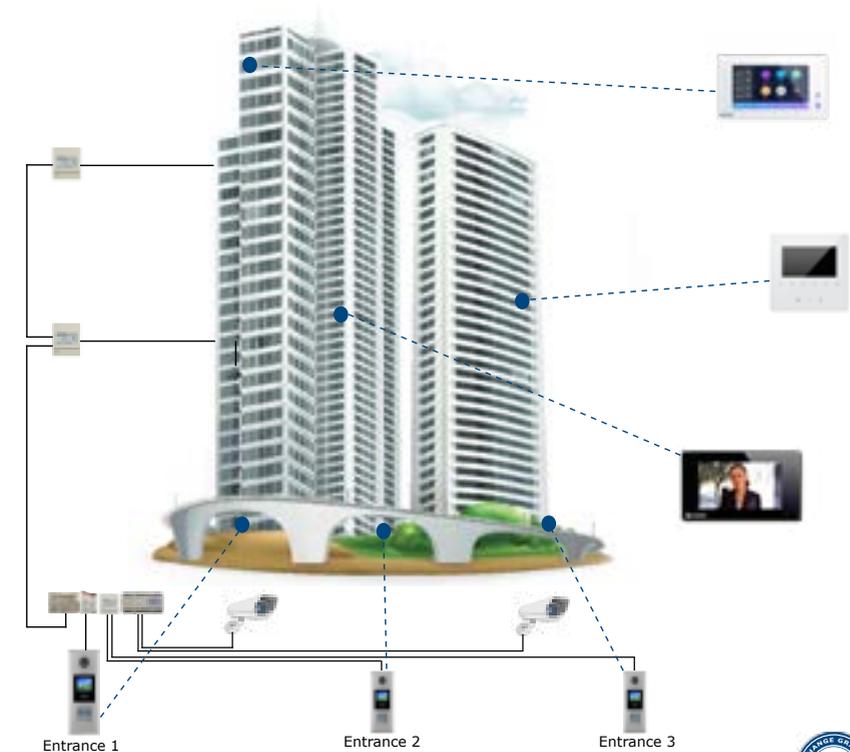

The 2Easy Series from CDVI offers you **advanced security** with an innovative WIFI connection with no monthly or annual subscription cost.

A **two non-polarised wires connection** is required for the whole system, allowing straightforward installation. The self-learning programming feature will achieve a quicker and immediate installation. The connection also ensures simple maintenance of the system in the long term.

The CDV47DX now includes **Wi-Fi connection and a new free mobile app** allowing users to control access from their phone by receiving calls or remotely releasing multiple locks.

The choice is yours with a full range of handsets, hands-free audio phone, door stations and monitors, all compatible with the 2Easy audio and video system.

Products	page		
Structure drawing	89	Multiway Entry	92
Audio Entry	90	Accessories	93
1 & 2 Way Video Entry	91		

Audio Entry Product Range

- Rugged door station
- Simple, stylish handset
- 2-wire connection
- Compatible with 2EASY video systems

Reference	Description
CDV17-H2	Additional audio handset for 2EASY
CDV17-HFA	Handsfree audio handset, wall mount
CDV17-DS	Additional audio door station

Make your own 2Easy Audio Kit!

Up to 4 door stations

Up to 4 monitors
Mix-n-match!

CDV-PC6 Power Supply

Recommended cable

UKC8471
1 pair, 16AWG cable for 2EASY, 100M

1&2 Way Video Entry Kits

- Black or white monitor
- Simple, stylish door station with keypad
- 2-wire connection
- App available on Android and IOS
- CDV47DX-B or CDV47DX-W
- CDV91S or CDV96KP
- CDV-PC6

Reference	Description
CDV4791S-DX-B	1-way entry kit, black
CDV4791S-DX-W	1-way entry kit, white
CDV4796KP-DX-B	1-way colour kit, black, integral keypad
CDV4796KP-DX-W	1-way colour kit, white, integral keypad

1&2 Way Video Entry Product Range

- 2-wire connection
- Compatible with 2EASY range

Reference	Description
CDV91S	1-button surface slim design door panel
CDV96KP	1-button surface stainless steel door panel, with integral keypad
CDV97-1ID	1-button video door entrance station, surface low profile, integral proximity reader
CDV97-2ID	2-button video door entrance station, surface low profile, integral proximity reader
CDV47DX-B	7" additional monitor, black, app available
CDV47DX-W	7" additional monitor, white, app available
CDV43	4.3" monitor, white
CDV-B	Monitor stand, desk mount, black
CDV-W	Monitor stand, desk mount, white

Download the app today!

CDV97-ID

- 170° Colour Camera
- Integral proximity reader
- Low profile surface mount
- 2-wire configuration
- 24Vdc
- standby 0.8W, working 3W
- 176 x 90 x 27mm

Reference	Description
CDV97-4ID	4 Button Video Door Entrance Station, Surface Low Profile
CDV97-8ID	8 Button Video Door Entrance Station, Surface Low Profile

CDV-DDP

- Maximum 128 users
- Flush, surface housing available
- Integral proximity reader & keypad
- 2-wire configuration
- 24Vdc
- standby 33mA, working 157mA
- 350 x 128 x 46mm

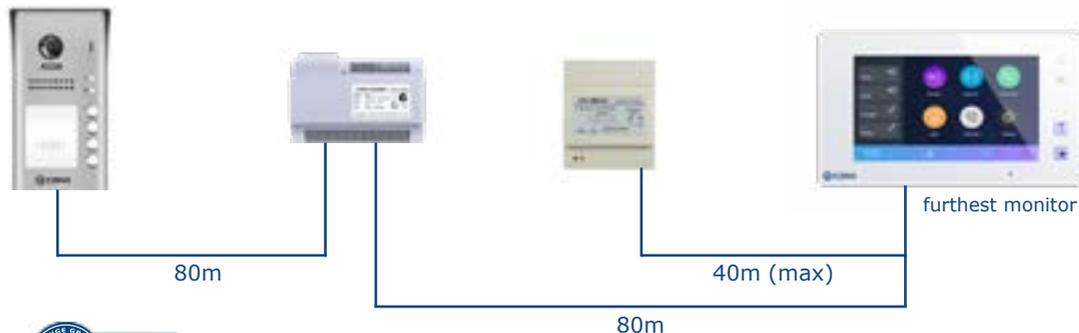

Reference	Description
CDV-DDP-F	Digital door station, up to 128 way, flush
CDV-DDPRH	Surface housing for CDV-DDP-F

2Easy Accessories

- All accessories needed for expansion
- Use of the UKC8471 cable recommended
- Allows connection to ATRIUM

Cable & Distance Specifications - using UKC8471 recommended cable

Reference	Description
UKC8471	1 pair, 16AWG cable for 2Easy, 100M
CDV-CONFIG	Software and Cables for CDV-DDP panels
CDV-PC6	Power/Bus combiner unit
CDV-DBC4A	Bus splitter for additional handsets or door stations
CDV-DBC4R	Bus splitter for multiway systems using CDV47-DX
CDV-RLC	Relay module (for second lock)
CDV-BDU	Bus amplifier to extend system capacity & cable length
CDV-ACC/S	Addressable wiegand signal converter for CDV97 & DDP*

*This wiegand 26 bit signal converter for access control systems allows for the connection of the 2Easy range with the ATRIUM access control system (p.6).

Become an access control expert

CDVI makes learning about access control easy and convenient whether it's on-site at our modern and fully-equipped training room, following one of our online learning opportunities or with on-line webinars.

The CDVI training is designed with installers in mind. Your sales and technical personnel will benefit from the knowledge and expertise made available to you.

Access control solution discussions

- Real-world scenarios and solutions
- Target markets and market trends
- Product features
- Creative problem solving using card access as a tool
- Integration and interfacing with other products

Advanced Technical Training

- Hands-on live system programming
- In-depth advanced configuration

We will be happy to welcome you at CDVI UK and show you all you need to know about our Digiway and Atrium products or give you an introduction to Access Control and Electric Locking. We will come to your facility as well!

This training is free of charge - Coffee and lunch will be on us too!

The CDVI Training Academy is an innovative learning opportunity, offered to anyone for free. Its goal is to deliver installer-focused training on the CDVI product range, especially on Access Control and Door Automation, in order to improve the installation standards of those products.

Our access control training opportunities include two sessions:

Basic Access Control and Electric Locking: designed with the installer in mind, this training takes them on a journey from locks to standalone and online access control systems. Its success has pushed us to create an online version of this course (to be released soon).

ATRIUM access control training presents the key points when installing and setting up the ATRIUM system, taking installers through wiring and basic programming.

Over 200 installers attended one or both training sessions within the past year.

Our door automation training opportunities include two sessions:

DIGIWAY door automation presents the features of the operators and how to install them depending on the users' requirements.

EN16005 Door Automation online course takes installers through the basics of the EN16005 standard and its implications when specifying and installing automatic doors.

Over 175 installers attended one or both training sessions within the past year.

Join our certified installers list and start being promoted on the CDVI website, where end users can find you when looking for Access Control and Door Automation.

"All aspects were clearly explained and gave a good source of information" – Ian, attended DIGIWAY training in January 2019.

"Very good course, great teacher" – Graham, attended Basic Access Control training in February 2019

"The training was not a PowerPoint presentation and therefore it was relaxed, informal and allowed for a lot of interaction, discussions and questions" – Phillip, attended Basic Access Control training in May 2019

For more information contact technical@cdvi.co.uk
or visit our **Training Academy page on www.cdvi.co.uk**

Access Card - An identification card with encoded information that, when presented to a card reader, identifies the cardholder to an access control system, allowing that system to determine the cardholder's entrance and exit rights.

Access Code - Numeric or alphanumeric data which, when entered correctly, authorizes entry into a secure area.

Access Control System - An interconnected set of controllers, managing the entrance and exit of people through secure areas.

Access Level - A security rating that must be met before access to a secure area is granted.

Access Point - The point of entry into a secure area, typically managed by a controller using some combination of a card reader, an electric door lock, gate, or similar device.

Access Parameters - Programmed information that define the conditions that must be met to grant access. Such parameters may include access codes, access levels, or timezones.

Access Request - The act of presenting the information necessary to verify a person's identity.

Alarm Relay Output - A relay on the controller that changes its state upon command by the controller.

ANSI - An acronym for American National Standards Institute.

Anti Passback (APB) - A method for providing one-card, one-way access into and then out of a secure area. It prevents someone from using a card to enter a secure area and then passing that card back to someone else to enter that same area.

AWG - American Wire Gauge - A standard for designating wire dimensions and specifications.

Batch Programming - A method for processing data or performing tasks in which a number of commands are collected and then processed by a controller all at one time.

Battery Backup - A secondary energy source used to power devices in the event the primary energy source fails. Battery Backup typically provides power for a short period of time, allowing for immediate action, system protection, and system shutdown before the battery reaches a drained state.

Bit - An abbreviation for "binary digit" in the binary number system. A bit will have the value of either 0 or 1.

Controller - A microprocessor based circuit board that manages access to a secure area. The controller receives information that it uses to determine through which doors and at what times cardholders are granted access to secure areas. Based on that information, the controller can lock/unlock doors, sound alarms, and communicate status to a host computer.

Electric Door Lock - A remotely operated electric locking device.

Electric Strike - An electric door lock that requires power to be applied to unlock a door.

Electromagnetic Lock - An electric door lock that uses an electromagnet to hold a door closed.

Event - An occurrence at a controller (such as unlocking a door, requesting to exit, forcing a door open) that generates a message stored by the controller.

Exit Reader - A reader used to control exiting from a secure area.

Fail-Safe Lock - A lock that is normally locked when the power is ON, and automatically unlocks when the power fails.

Fail-Secure Lock - A lock that is normally unlocked when the power is ON, and automatically locks when the power fails.

Infrared Motion Sensor - A sensing unit that detects motion based on the disruption of infrared light waves.

Jumper - A plugable, movable device that allows connections to be made between points on a circuit board.

Latching Relay - A relay that when set (either ON or OFF depending upon the relay configuration), locks into place until reset either manually or by a signal.

LED - The abbreviation for Light Emitting Diode.

Lock Relay Output - A relay on the controller that changes its state upon command by the controller, locking or unlocking a secure door.

Master Code Card - An access control card that grants access and exit at every card reader on the system.

Normally-Closed (N/C) - The state of an input device that continually keeps a circuit closed or complete until forced by an action or event to open that circuit.

Normally-Open (N/O) - The state of an input device that continually keeps a circuit open or incomplete until forced by an action or event to close that circuit.

Output Relay - A device that changes its state upon receiving a signal from a controller. Typically the state change prompts an action outside of the controller such as activating or inactivating a device.

PIN - Personal Identification Number - A unique numerical code used to identify an individual
Proximity - A method of reading a card or key tag without requiring any physical contact between the card/tag and the reading device. [Click Here](#) for a description of the operating principle behind proximity.

Reader - A device that "receives" an identification code from a card, key tag, magnetic stripe card, bar code card, or related item.

Relay - A device that is capable of opening a normally-closed circuit or closing a normally-open circuit. When the relay is not energized, the normally-closed circuit is complete and the normally-open circuit is open. When the relay is energized, it switches roles, opening the normally-closed circuit and closing the normally-open circuit.

Smart Card - An identification card or access control card with a built-in integrated circuit chip. This gives the card microprocessor memory and intelligence to use for storing data. Also Known As - Chip-In-Card.

Switch - A device used to either connect or interrupt an electronic circuit.

Timezone - A specified period of time in which access is allowed. A variety of timezones may be defined to accommodate the access needs of a variety of people.

Wiegand Compatible Devices - A proprietary coding format for information used by many of the suppliers of cards, key tags, proximity readers, magnetic stripe readers, bar code readers, and related items.

Wiegand Reader - A reader capable of reading the information encoded on a Wiegand card.

Price List

Our price list is available both in hard copy and electronically - please contact us for details.

Site Surveys

Our technical team will be pleased to visit you at your premises to discuss our product range, and assist in specifying the right product for your project.

Product Information

For more information about our range of products, please visit our website. Our website is an updated database with our latest product news, datasheets, manuals and guides.

Demonstration Material

We offer equipment, demonstration cases and displays for customer demonstrations in order to present and showcase our products.

Marketing Support

We are able to provide a variety of supports and goodies to enhance your show-rooms, exhibition stands, open days... We also promote installations through case studies.

Full details of our terms and conditions are available upon request on our website
